The coll. was founded by royal charter in Aug. 1949, and was opened in Oct. 1950. Situated at Keele Hall, where there is an estate of 640 acres, it is about 2 miles west of Newcastle under Lyme.

CONSTITUTION of the coll. follows pattern of mod. English univs. with one important deviation. There is a court, a council and a senate with the usual division of powers and duties, but in addition an academic council, the majority of whose members are reps. of the univs. of Oxford, Manchester and Birmingham, and whose approval is required on all matters of academic importance.

INCOME (1959-60), £384,500. Approx. percentages from different sources: govt., 72 per cent.; local authorities, 12 per cent.; fees, etc., 16 per cent.

BOARDS OF STUDIES (1961-62). *Humanities*: chairman, Prof. K. Brooke (mod. langs.); sci.: chairman, Prof. D. S. Jones (maths); soc. scis.: chairman, Prof. A. E. Teale (moral & pol. philos.).

LIBRARY. 200,000 vols.

LABORATORIES. Biol., chem., geog., geol., phys.

FIRST DEGREE AND DIPLOMA COURSES. The charter empowers the coll. to grant its own degree of BA. The 1st yr. of the 4-yr. course consists of a compulsory course of lectures identical for all students but with tutorial work adjusted to individual needs. This course is concerned with the heritage of civilization, present-day problems and the methods and influence of the experimental scis. During the last 3 yrs., students must select not less than 4 subsj., which must include at least 1 from the humanities and soc. scis., and at least 1 from the scis.; 2 of these 4 subsj. must be studied at principal level throughout the whole of the 3 yrs. Subsjs. taken at subsid. level are studied for 1 yr. The BA degree is awarded with hon. where sufficient merit is shown. During these last 3 yrs., an educnl. dipl. course may be taken concurrently with the BA studies. This dipl. is recognized by the Ministry of Educn. A social studies dipl. may also be taken with the normal BA studies.

Transfer courses are provided in the 1st yr. of the 4-yr. degree course to enable students with no sci. qualif. at G.C.E. advanced level to offer at least 1 sci. subj. as a principal subj.

HIGHER DEGREES. Members of staff and postgrad. students of the coll. may, under approved

conditions, be accepted as candidates for the degrees of MA, MSc and PhD of the univs. of Birmingham and Manchester.

EXTERNAL DEGREES are not awarded.

GENERAL INFORMATION

The univ. originated in the adult sch. establ. in 1798, the Mechanics' Inst. and the People's Coll., developments leading to the univ. extension lectures inaugurated in Nottingham in 1873—the first in the country—by the Univ. of Cambridge. An anon gift of £10,000 in 1875 encouraged the corporation of Nottingham to erect a bldg., maintain it, and supply instrcn. The bldg., in Shakespeare St., was opened in 1881 as the Univ. Coll., Nottingham, incorporated by royal charter in 1903. There were at first 4 professorships (lit., phys., chem., nat. sci.).

A large estate some 3 miles W. of Nottingham, giving room for expansion, and new bldgs. completed in 1928, were provided by the first Lord Trent, after whom they are now named. In 1938 a supplemental charter reconstituted the governing body, providing for much wider representation. The coll. was relieved in 1945 of responsibility for evg and pt-time educn in the area, in 1947 the Midland Agric Coll. at Sutton Bonington became the coll. sch. of agric., and an inst. of educn was founded. Since 1948, when the univ. charter was granted, 175 acres have been purchased, bringing the site to a total of 295 acres; new bldgs., incl. 2 halls, a biol. bldg., the Portland bldg. containing refectories and students' amenities, a chem. bldg., part of the appl. sci. bldg. and the educn. & soc. sci. bldg. have been erected, and 21 new professorships have been established.

CONSTITUTION The supreme governing body of the univ. is the court, which includes the officers, life members, reps apptd. by local authorities, reps of churches, members of parliament of the divisions of the city of Nottingham and certain E. Midland constituencies, *ex-officio* members, reps of staff, students and convocation, of other instns. and socs., incl. schs. and colls., and other persons, 3 of whom are nominated by the lord president of the privy council. The chairman of court is the chancellor. Subject to control by the court, the council is the executive of the univ., responsible for the conduct of all the affairs of the univ. The council consists of the officers, 8 reps apptd. by court, reps of local authorities in the E. Midlands area, 7 senate members, 3 reps apptd. annually by council and 1 rep of convocation. It controls the management and admin. of all revenue and property through the bursar and his dept. Subject to control by the council, the senate, which is presided over by the vice-chancellor, regulates academic matters. Its other members are the deans, the profs., the dir. of the inst. of educn., indep. hds. of depts., the librarian, 6 elected members of the non-professorial staff and other reps of fac. bds. as approved by court. To each fac. bd. are assigned specific powers, incl. that of expressing its opinion to senate on any matter relating to the fac.

INCOME (1959-60). Total income, £1,263,996

Percentages derived from principal sources: parliamentary grants, 69.9 per cent.; fees, 12.1 per cent.; local authority grants, 5.8 per cent.; endowments, donations and subs., 3.4 per cent.; other income, 8.8 per cent.

FACULTIES AND DEANS. *Agric. & hort.*, Prof. F. L. Mithorpe (agric. bot.); *appl. sci.*, Prof. J. E. Parton (electr. engin.); *arts*, Prof. J. S. Roskell (hist.), *educn.*, Prof. M. M. Lewis (Inst. of Educn.); *law & soc. sci.*, Prof. J. C. Smith (law); *pure sci.*, Prof. D. D. Eley (phys. chem.).

UNIVERSITY PRECINCT The univ. site is a park bounded by Univ. Boulevard, Clifton Boulevard, Derby Rd. and Beeston Lane. From a N-S ridge across the centre, the land falls to level areas on the E & W. edges of the park. It is planned that the bldgs. of general use, incl. library and senate house, shall be grouped with the non-sci. facs. on the hill in the centre of the site. The pure and appl. sci. facs. will be on the level area to the E. Halls of residence, each with an associated group of tutors' houses, will stand on the central ridge itself and along the N. & W. perimeters. By concentrating the teaching bldgs. in groups, and by keeping the halls mainly on the edges of the site, it will be possible to preserve the park-like nature of the univ. precinct, with belts of tree-covered lawns and meadows lying between and around the groups of bldgs.

The sch. of agric., comprising the fac. of agric. & hort., is located 10 miles from the univ., between Nottingham, Derby and Loughborough. **Address:** Univ. of Nottingham School of Agriculture, Sutton Bonington, Loughborough (tel. Kegworth 386).

LIBRARY. About 184,000 vols and 66,000 pamphlets. Sp. collections incl. the French Revolution & Napoleonic collection, 2000 vols.; the Henry Mellish meteorological collection, 700 vols.; the W. G. Briggs collection of early sch. books and the D. H. Scott collection of 6200 pamphlets on palaeobot. The library is an approved repository for manorial documents, and among the more important records are those relating to the Duke of Portland, Earl Manvers, Lord Middleton, Viscount Galway, the Hatfield Chase corp., Mellish Trustees, Newcastle Trustees and the Archdeaconry of Nottingham. Current periodicals number over 500. The main reading rooms accommodate over 400 readers. The library at the sch. of agric. contains over 9000 vols.

LABORATORIES. Equipped for res. in all sci. subs. New labs. in chem., bot. and zool., agric. sci., mining engin. and metall., labs. for other branches of engin. and for phys. under construction.

MUSEUMS. Archaeological, houses *Margidunum* Collection (made by the late Dr F. Oswald) of Roman pottery. Geological. Also scientific collections in various labs. and objects of historical interest distributed about the univ. bldgs. Curator: W. R. Chalmers, MA.

INSTITUTE OF EDUCATION, Redcourt, Derby Rd, Nottingham (tel. Nottingham 56101) (see also 'Teaching Staff', above) The inst is responsible for approving courses and examining students preparing to become teachers, youth leaders and tutors in adult educn. It also provides a variety of services for those engaged in educn in the area. The constituent colls of the inst are the Deiby, Kesteven, Lincoln, Loughborough, Matlock, City of Nottingham and Nottinghamshire County Trg. Colls.

GENERAL INFORMATION

[See below, p 1161, under 'Publications', for pamphlets giving information about admission, residence, entrance scholcs, expenses, exams, degrees, research, etc.]

There is evidence that there existed in Oxford in the early 12th century schools which by the end of that cent had developed into a univ, a devel perhaps helped by the fact that about the year 1167 English students were prevented from attending the Univ of Paris. By about 1200 there were a number of masters lecturing on various subjs., incl. the recently recovered works of Aristotle, and in 1214 the univ received its first recorded recognition as a body in a grant by the papal legate of certain privileges incl. reduction of the rents it paid. In the 13th cent. the coming of the friars, notably the dominicans and franciscans, strengthened the univ., especially in the theol. fac. In the same cent the 3 first colls (University, Balliol and Merton) were endowed, and 12 more were founded between 1300 and 1555. During the middle ages, however, the colls. were more or less reserved for grad fellows (as All Souls still is), and the great majority of undergrads and grads. lived in a large number of academic 'halls', or hostels, scattered about the town. The univ. at first had no bldgs of its own, but made use of hired lecture rooms or of churches, especially St Mary's church, until, in the 15th cent, the div sch. was built. From the 13th cent onwards the position of the univ was strengthened by a succession of charters from the crown, but during the Reformation it suffered from the suppression of the monastic colls. In 1571 the univ. was incorporated by act of parliament, and much reorganization followed, in particular, the undergrads now came to be included in the colls. Professorships were first endowed in the early 16th cent, and increased notably in the early 17th cent. The important code of statutes introduced in 1636 by Archbishop Laud, chancellor of the univ, remained in force, with certain modifications, for about 150 yrs. During the civil war the univ

supported the king, who made Oxford his headquarters, and parliament met there. The late 17th cent saw an increase of scientific studies at Oxford, and towards the end of the 18th cent the standard of studies rose as written exams gradually took the place of oral exams. The constitution was revised, as a result of the work of royal commissions, in 1854 and in 1877. coll. statutes were re-made and studies reorganized, and the profession was increased and re-endowed. In 1871 religious tests were abolished, and the MA degree was thrown open to non-conformists, and since 1920 women have been admitted to membership of the univ under the same conditions as men as regards standing, exams, courses of study and fees, and residence. As a result of the work of a further royal commission, the existing constitutional arrangements were adapted in 1923 to meet the needs of the times, one result being that the univ from then onward received an annual Treasury grant.

CONSTITUTION. The central policy-forming and exec body in the univ is the *hebdomadal council*, comprising the chancellor (a non-resident member, elected for life by convocation), the vice-chancellor (a coll head nominated by the chancellor annually, usually holding office for 2 yrs, and *de facto* chairman of the hebdomadal council), the immediate ex-vice-chancellor (for 1 yr after the expiry of his term of office) or one of the pro-vice-chancellors who has not held the office of vice-chancellor, the 2 proctors (disciplinary officers, elected annually by colls in rotation), the representative of the women's colls, and 18 members elected by congregation (see below).

Other considerable powers and responsibilities are held by the *general board of the facs.*, which comprises the vice-chancellor, the proctors, the representative of the women's colls, and reps

of the hebdomadal council, the curators of the univ. chest, and the several faculties—theol, law, med, litera humaniores, mod. hist, Engl lang & lit, mediæv. & mod langs, oriental studies, phys scis (incl maths), biol. scis, soc. studies, anthropol & geog, music, agric. & for, and psychol studies—and which exercises a general supervision over the teaching (other than coll teaching), res and exams of the univ (executive organization being in the hands of the several bds of the facs, the bd in each case being composed in part of *ex-officio* and in part of elected members); and by the curators of the *univ chest*, who are responsible for the detailed financial administration of the univ. and for the preparation of accounts and estimates

The hebdomadal council submits proposals for the amendment of the statutes (which govern the working of the univ), and measures for the conduct of business beyond the scope of its own authority, to the *congregation of the univ*, which can adopt, reject, or amend them, congregation comprises mainly the teaching and sr admin staffs of the univ. Legislation carried by the vote of less than two-thirds of the members of congregation present and voting is referred to, and can be carried or postponed or rejected by *convocation*, a larger body comprising all holders of the MA and certain sr degrees who have their names on the univ books; convocation also confers degrees by dipl and hon degrees, and authorizes the affixing of the univ seal when necessary.

The COLLEGES are corporate bodies distinct from the univ, they manage their own property, elect their own officers, have their own bldgs and facilities (usually including residential accom, dining-hall, chapel, library, sr and jr common-rooms, and playing-fields) and control the selection and admission of their own undergraduates; and the proctors have no power within their walls. They are, however, subject to the univ. statutes in certain connexions, notably presentation and audit of accounts, contributions for univ. purposes and elections to professorial fellowships, and all persons who are members of colls are also members of the univ and so come under the univ's rules. Teaching is carried out partly by way of lectures and classes held by univ profs, readers, lectrs and demrs, partly by way of individual tuition given by coll tutors and lectrs. (most of whom hold, in addition to their coll posts, pt-time univ. lectureships and are referred to on pp 1123-1136 as Common University Fund lectrs.)

ST CATHERINE'S COLLEGE A new coll, St Catherine's College, will be opened in 1962 (master A. L. C. Bullock, MA, barrister, D. J. Wenden, MC, MA). St Catherine's Society will then disappear and a new non-resident postgrad. society called Linacre House will be opened.

INCOME The income of the univ (not incl the income of the separate colls.) for the year 1959-60 was £3,968,700, made up as follows: endowments, £347,910 (8.7 per cent.); parlia-

mentary grants, £2,710,791 (68.5 per cent.), fees, £293,119 (7.3 per cent.), payments for res., £475,796 (12 per cent.), contributions from colleges, £75,801 (1.9 per cent.), other income, £65,283 (1.6 per cent.)

In addition, there are some 46 dept and fac libraries containing altogether about 360,000 books of sp. interest to their particular students.

Apart from these univ. libraries, each coll. has its own library, use of which is normally restricted to members of the coll. Two libraries at All Souls Coll (Codrington libr of law and mod. hist. and Brand libr. of pol. econ & sci.) are, however, open to any recommended member of the univ.

UNIVERSITY ENTRANCE REQUIREMENTS. It should be particularly noted that although information about the univ. entrance requirements may be obtained by students both at home and overseas from the head clerk, Univ Registry, Oxford, no person may become a member of the univ without first securing admission to a coll. or society, and that applcn for admission to the univ. must first of all be addressed to the appropriate officer of the society to which admission is desired. Full details may be obtained from Appendix III to this volume. Advice on special problems affecting overseas students may be sought from the actg. adviser to overseas students, Univ Registry, Oxford.

Incorporation into the univ is open under certain conditions to undergrads and grads of the univs. of Cambridge and Dublin, incorporation means admission to the status (and degrees if applicable) corresponding at Oxford to that held at Cambridge or Dublin. Notice of intention to incorporate as an undergrad must be sent to the registrar through the head of a coll., hall, or society. Incorporation as a grad. (for which adequate

reasons must be provided, *eg* obtaining of an educul post in the univ, or intention to pursue a definite course of study in the univ) is limited to holders of the BA, MA, BD, or DD of Cambridge or Dublin, of the LL.B, LL.D, MB, MD, MChir of Cambridge, and, under certain conditions, of the ScD, MusD, LittD, and PhD of Cambridge or Dublin

NON-MEMBERS OF THE UNIVERSITY may be admitted to lectures given in a univ bldg (but not to classes, seminars, or informal instruct) on certain conditions and on payment of £10 a term (or, for lectures in one fac only, £6 a term) to the sec of the Univ Chest, 16-19 Wellington Sq, Oxford

Persons qualified for *status* (see Appendix III), or other grads who may in sp circumstances be approved, who wish to study at the univ for not more than one yr and who do not intend to read for a degree may apply to the appropriate fac bd for admission as *recognized students*. Certain fac bds will admit to this status only those who are members of the teaching staff of a univ. Such students are not members of the univ, but are placed under a dir. of studies and are entitled to attend lectures in univ. bldgs, to use the univ libraries and to work in any univ dept. or matn subject to the agreement of the hd. of that dept. or instr. Applic. forms for this status may be obtained from the sec. of faculties, University Registry, Oxford. The applic. must be accompanied by evidence of degrees previously obtained, a statement of the proposed subject of study and a cert. from a prof. or hd. of a dept. of the Univ. of Oxford supporting the applic. Admission fee of 5 gs, and terminal fees of from £10 to £13, are payable

(French, German, Italian, Spanish, Russian, mediæv & mod. Greek, or Portuguese); philos., pol. and econ., geog.; agric.; for.; psychol., philos. & physiol.; and music. The lists of successful candidates in hon. exams are divided into 4, or in some cases 3, classes

'Transfer course' Under arrangements made with Imperial Chemical Industries Ltd, it is possible for boys who have studied mainly arts subsys. at sch, but who feel that their main interest may after all be in sci., to spend a yr in London doing an intensive course in chem, maths, and phys before coming to Oxford. At the end of the course they can decide whether to start reading for a degree in sci. or whether to return to their original suby. Further information about this 'transfer course' may be obtained from the student's coll.

Under certain conditions, grads. of other univs may be admitted to the status of 'senior student' and obtain exemption from the first public exam, as well as remission of 3 terms of the necessary residence (see Appendix III)

BM BCh—min 6 yrs. This is the first degree awarded by the univ in med, though (with very few exceptions) it may not be awarded to persons who have not first taken the BA degree, which will normally have been obtained after the first 3 yrs by gaining hon. in certain of the subsys. being studied concurrently for the BM. The last 3 yrs. of the course are devoted to clin. studies, and may be spent either in the Oxford clin. sch. or in an approved clin. sch. elsewhere. Further information from the sec. of the Med. Sch., Osler House, 43 Woodstock Rd., Oxford.

HIGHER DEGREES MA—open only to Oxford BAs, and awarded without further exam after 7 yrs from matric. on payment of certain fees

This degree is granted after an exam. in philos. or Greek and Latin langs. & lit. or pol. or econ. or European hist. or Commonwealth & American hist. or Engl. studies or oriental studies of the same type as that in a final honour sch, but is open only to persons who either have previously obtained 1st or 2nd class hon. in certain prescribed honour schs. at Oxford, or are grads. of Oxford or of another univ who have been admitted by the appropriate fac bd. Courses of instruct in the subsys. of the exams are provided. A thesis may be offered in addition to the written work. Residence for 6 terms is required.

BSc and BLitt—min. 1 yr.'s study. These degrees are granted upon the satisfactory completion of an approved course of sp study or res.,

pursued under supervision and for the most part at Oxford, and of at least 6 terms' residence. Applicant to enter upon such a course may be made by any person who produces sufficient evidence of his ability and either is a member of the univ. who has passed the exams for the degree of BA, or has taken an approved degree at an approved univ., or is held by the fac. bd. concerned to be fully qualified to engage in res., or (for the BLitt only) has obtained an Oxford dipl. with distinction. Applicant must in all cases be made to the sec. of faculties through an officer of the society to which the candidate belongs or desires to belong. A candidate for the BLitt must first undergo a probationary period of trg. in res. methods and then do a sp. piece of res. work and write a thesis, and may be required to pass a written exam. For the BSc, which is confined to the study of med., maths, nat. sci., anthropol., geog., agric., for and psychol., no probationary period is prescribed.

PRINCIPAL OPEN AWARDS. The only awards offered by the univ. to students wishing to read for a 1st degree are the Squire scholps in theol and the Davis scholp in Chinese; these are tenable at any coll but do not of themselves carry admission to a coll; numerous entrance awards are, however, offered by the colls themselves. Details of all these awards are published annually in June in 2 sp scholp numbers (one for men and one for women) of the *University Gazette*, obtainable from the Univ Press Depot, 116 High St, Oxford.

POSTGRADUATE AWARDS open to grads of other univs, see p 808.

RHODES SCHOLARSHIPS were founded in 1902 under the will of the late Cecil John Rhodes. Their value is £750 a yr each. They are tenable for 2 yrs in the first instance at Oxford Univ.; and for a third, if it is eminently in the interests of a scholar's immediate studies and future career, either in Oxford or, in rare cases, elsewhere, but not in the country of the scholar's origin.

In his will, Mr Rhodes expressed the wish that 'in the election of a student to a scholarship regard shall be had to his literary and scholastic attainments; his fondness for and success in many outdoor sports, such as cricket, football, and the like, his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindliness, unselfishness, and fellowship, and his exhibition during schooldays of moral force of character, and of instincts to lead and to take an interest in his school-mates'. The conditions of the competition in each country or community are fixed from time to time by the trustees.

Approx 37 scholps are assigned annually to the British Commonwealth and South Africa as follows: Australia, 6 (1 for each state), Bermuda, 1, British Caribbean, 1 (every 3rd yr. from 1961); Canada, 11 (2 each for Ontario and Quebec and 1 each for the other provinces), Ceylon, 1 (every 3rd yr from 1958), Ghana, 1 (every 3rd yr from 1959), India, 2; Jamaica, 1, Malta, 1, Malaya, 1 (every 3rd yr from 1960); New Zealand, 2, Nigeria, 1 (every 3rd yr from 1961), Pakistan, 1; Rhodesia, 3, South Africa, 8 or 9 (1 each for Cape Province, Natal, Orange Free State and Transvaal, and 1 every alternate yr for Eastern Province, and 1 each for the following 4 schs: Diocesan Coll, Rondebosch, Paul Roos Gymnasium, Stellenbosch, St Andrew's Coll, Grahamstown, and South African Coll Sch, Cape Town).

32 scholps are assigned annually to the U.S.A.—4 to each of 8 districts, awarded among candidates sent forward from each state, of which there are normally six in the district. *The American Oxonian*, the official magazine of the Alumni Asscn of American Rhodes Scholars, is published quarterly.

Candidates for Rhodes scholps must be be-

tween 19 and 25 yrs of age and unmarried. They must be citizens of the country from which they come, usually with 5 yrs' domicile, and except in a few sp cases must have at least 2 yrs' standing at a regular degree-granting coll or univ

See

Halifax House was established in 1950 as a hostel, club and social centre for grad students, sr. members of the univ. engaged in res., teaching or admin. in the univ., and visitors from overseas temporarily in Oxford for advanced study. Warden Janet G. Anderson, Halifax House, 6 & 7 South Parks Rd., Oxford (tel. Oxford 598981).

STUDENT RESIDENCES Students are accommodated either in the colls or in lodgings which the students themselves find. Most (if not all) colls, however, have arrangements with a doctor for the treatment of members of the coll. and with a nurse to attend at stated times for treatment of minor ailments. In addition, a mass-radiography scheme is organized for the benefit of all members and staff of the univ.

STUDENTS' REPRESENTATIVE COUNCIL There is no students' rep. council for the univ. Within each coll, however, there is an informal student organization concerned with matters (other than academic) of common interest to undergrad members of the coll.

STUDENTS' UNION The Oxford Union Soc. is open to all male members of the univ. In addition to functioning as a debating soc., it has a lending library, restaurant and rooms for social activities. Its premises are in St. Michael's St., Oxford (tel. Oxford 41353).

UNIVERSITY PRESS (For staff, see 'Admin and Other Staff', above). The univ press is a dept.

of the univ controlled, through its sec, by a bd consisting of the vice-chancellor, proctors, the representative of the women's colls, and 10 delegates apptd. from members of convocation. Its headquarters are at Oxford, in the Clarendon Press bldg, where are also the publishing dept, responsible for learned books, and the printing works. Books produced at Oxford are distributed by the London publisher and manager, who himself publishes for the univ other classes of less learned books. In addition to these depts, and a paper-mill at Wolvercote, Oxford, the press also owns and controls branches overseas, for the production of books of local interest as well as the sale of those produced in England. The press publishes a *General Catalogue* (5s.).

CONSTITUENT INSTITUTION

NATIONAL INSTITUTE FOR RESEARCH IN DAIRY-
 ING, Shinfield, nr. Reading (tel. · Reading 83103),
 established by Ministry of Agric & Fisheries in 1912,
 forms part of univ. It is governed by a bd
 consisting of reps. of Ministries of Agric and

Health, Royal Agric. Soc. of England, British
 Dairy Farmers' Assocn., Nat. Farmers' Union,
 etc. Dir.—Prof. R. G. Baskett, OBE, MSc,
 FRIC. See also pp. 1166-1167

GENERAL INFORMATION

A univ. extension coll. was opened at Reading in 1892, it was based upon the local Oxford Univ. extension centre and the local schs. of sci. and art, and derived its first impetus largely from Christ Church, Oxford. In 1902 it established a claim to a state grant as a univ. coll. In 1904 and 1905 it received endowments of land and money from the Palmer family. Wantage Hall, endowed by Lady Wantage, was built in 1908 as a residence for men students, the declared policy of the council being to make residence in a hall the rule and not the exception. An endowment fund of £200,000 was subscribed in 1911 by the benefactors already mentioned. The univ. was established by royal charter on March 17, 1926.

Various developments call for special notice. One is the establishment, in connexion with the coll. and univ., of the Natl. Inst. for Res. in Dairying. Another is the bldg. and endowment of the library, the costs of which were defrayed by Mr. Alfred Palmer and members of his family, the bldg. constitutes a memorial to the late Rt. Hon. George William Palmer, one of the chief benefactors of the coll. Residential accomm. has been increased, and the univ. now has 7 halls of residence, 3 for men and 4 for women. Further additions are being planned.

The univ. has steadily grown. Because of the inadequacy of its present site, it acquired in 1947 the freehold of the Whiteknights park estate of nearly 300 acres of parkland (approx. one mile from centre of Reading), to which it is hoped ultimately to transfer the whole univ. At present 2 new bldgs. in the park are in use: the fac. of letters, opened in 1937; and the dept. of phys., opened in March 1950 by Sir George Thomson and named the J. J. Thomson Physical Lab.

CONSTITUTION. The supreme governing body of the univ. is the court, presided over by the chancellor. The executive body is the council, which is composed of academic and lay members, and elects its own chairman. The senate, which consists of all profs. of the univ. and 3 elected members of the academic staff, regulates academic matters; the vice-chancellor is chairman. Facs. are controlled by their own bds., and schs. by their own ctees, subj. to the authority of senate and council.

INCOME (excl. Natl. Inst. for Res. in Dairying) (1959-60). Total income, £819,880 (Treasury grant, 76.9 per cent.; fees, 10.8 per cent.; grants from local authorities, 2.2 per cent.; other sources, 10.1 per cent.).

GENERAL INFORMATION

The Sheffield Sch. of Med, founded 1828,
Firth Coll, establd. as a coll. of arts and sci. in
1879, and the Sheffield Technical Sch, opened in
1886, were united in 1897 to form Univ Coll,
Sheffield. In 1905 the coll became, by royal
charter, the Univ of Sheffield.

Originally dependent almost entirely on local
contributions, the univ. developed slowly in its
early yrs, with the facs of engin and metall in
particular benefiting from their close connexion
with local industry, but with a balance of student
numbers largely in favour of the arts and pure

scis. In recent yrs Treasury grants have made
possible all-round expansion, and since the end
of the war 13 new depts have been establd, 26
chairs created, 5 major bldgs and considerable ex-
tensions completed, and extensive sites acquired.
Particular attention has been paid to facilities for
postgrad. study in the various branches of engin
and metallurgy, in 2 of which—glass and re-
fractories technol—Sheffield has the only univ
teaching depts in the country.

CONSTITUTION. The court, the governing body
of the univ, consists of some 470 reps of educnl

and financial interests, who receive an annual report and statement of accounts and sanction changes in ordinances. Executive control rests with the council, composed of the officers of the univ and reps apptd by court, senate, the non-professional staff, local authorities and hosps, and convocation. The senate, comprising the profs. of the univ and certain other academic persons, controls all academic affairs and reports to the council on academic matters requiring action by the council. Seven facs (*see below*), each under its own bd, are responsible to the senate for the teaching in their various depts. The dept of extra-mural studies and inst of educn report direct to the senate and the council through their bds.

The chancellor is the chief officer of the univ. The vice-chancellor is the principal academic officer, and is, *ex officio*, chairman of senate.

INCOME (1959-60) Endowments, £59,050, donations and subscriptions, £50,638; grants from local authorities, £39,528; parliamentary grants, £1,238,358, students' fees, £175,384; contributions for services rendered, £181,360, other income, £3692.

FACULTIES AND DEANS *Arts* (incl. archit), Prof E. Laughton (Latin), *econ & soc. studies*, Prof J C Gilbert (econ), *engin* (depts of civ, electr and mech engin, appl mechs., mining, fuel technol & chem engin, glass technol.), Prof M W Thring (chem engin), *law*, Prof O R. UNIVERSITY PRECINCT The teaching and res bldgs of the facs of arts, econ. & soc. studies, law, med and pure sci, the sch of soc studies, library, staff club house, students' union and admin. offices are grouped in the Western Bank area, in close proximity to 4 of the teaching hosps. A short distance from this main group lies the St. George's Sq block of engin and metall depts, and on the other side of Western Bank, linked to it by new playing-fields, the bldgs of the dept of glass technol. Sites now being developed, both in the neighbourhood of these groups of bldgs and in a pleasant residential suburb about a mile away, in which the halls of residence for students are situated, will result in compact univ teaching and residential quarters.

GENERAL INFORMATION

The idea of a Univ Coll. of Sussex was first discussed in 1911, when it was suggested that such a coll. should be establd at Brighton and recognized as a constituent part of the Univ. of London. An appeal for funds was launched and about £2800 was collected, but on the outbreak of the first world war the proposal fell into abeyance. It was not revived until after the second world war, when the rapid development of the Brighton Tech. Coll. gave rise to a proposal that that instn. should

be developed into a univ coll. This idea was not favourably received by the Univ Grants Cttee and the Ministry of Educn., and in 1948 it was agreed by the Brighton Borough Council that the ultimate aim should be to have a separate univ instn. No further action was taken, however, until 1955, by which time national needs were pointing to the necessity for a considerable expansion of univ educn during the decade beginning 1961. In 1956, as the result of an approach by the

* Associate Member of the Association of Universities of the British Commonwealth

Brighton Borough Council to the other local authorities in Sussex, a joint cttee. was formed to take further action to found a univ coll. An approach was made to the Univ. Grants Cttee., which, after satisfying itself on various aspects of this proposal, finally, on July 1, 1958, gave its formal approval to the establishment of the coll. The joint cttee was then reconstituted as a provisional coll. council, and the coll. obtained interim legal status when, in May 1959, it was registered under the Companies Act as a Limited Liability Company, the members of the council being the dars. of the company. In Jan 1961, a petition was presented to H M the Queen praying for a royal charter of incorporation as a univ. The charter was granted and came into force on Aug. 16, 1961.

CONSTITUTION The univ. consists of a court, council and senate, and the usual univ. officers. Council is the governing body, powers of court being limited to election of chancellor, pro-chancellors, treasurer and some members of council. In order to guarantee satisfactory academic standards, there is also an academic advisory cttee. which will be an integral part of the univ.'s constitution for a limited period. This cttee consists of 5 or 6 persons of high academic standing and has the duty of advising the council and senate on academic matters, incl. the institution of degrees, the appt. of sr. members of staff and the conduct of exams.

INCOME The 5 local educn. authorities in Sussex contribute between them an annual sum of about £40,000 towards the recurrent expenditure of the univ. The Univ. Grants Cttee. has undertaken to meet the remaining essential recurrent expenditure from 1961-62. The Univ. Grants Cttee. has also set aside £2 million to provide bldgs. (other than student residences) for the univ. during the period 1960-63. A public appeal was launched at the end of 1960 to obtain funds primarily for student residences; the target was £500,000.

DEANS There are no depts. in the univ. The fac. of arts is organized into 3 schs.—Engl. studies, European studies and soc. studies. Each sch. is presided over by a dean. *Engl. studies,*

Prof. D. Daiches; *European studies*, Prof. R. J. M. Wight (*European hist.*), *soc. studies*, Prof. A. Briggs (*hist.*).

SITE AND BUILDINGS Work on the first 2 bldgs.—Coll. House (the social and recreational centre), and the phys. bldg.—commenced in Dec. 1960. These bldgs. should be completed by Oct. 1962. 4 more bldgs.—chem., engin., arts and library—should be completed by Oct. 1964. In 1961-62, teaching is being carried on in rented premises. All the permanent bldgs. will be erected on the univ. site of about 200 acres at Falmer, between Brighton and Lewes. Of this, 150 acres have been leased to the univ. for 999 years by the Brighton Corp., and the remainder has been purchased.

ADMISSION. See Appendix III.

FIRST DEGREES. At the outset, the univ. will have 2 facs. arts and sci. Arts studies leading to an honours degree of BA (taking 3 yrs.) will be organized in 3 schools—English studies, European studies and soc. studies—the intention being to ensure that the necessary specialization is accompanied by a desirable breadth of approach, through the co-operation of different subject specialists in a common degree course. BSc degree studies will include pure maths., appl. maths., phys., chem. and biol. A student taking a first honours degree in sci. will be required to study 3 of these subs., together with some hist. of sci. or soc. sci., for 3 yrs., a limited number of students will be able to specialize in one of the subs. for an extra yr. and obtain a second honours degree. A course (taking 3 yrs.) leading to a degree in engin. sci. (without specialization) will also be offered.

HIGHER DEGREES Courses leading to degrees of master and doctor will be made available at the earliest practicable date. The MA degree will require at least 1 yr. of study or res. after the honours degree and the PhD or DPhil degree at least 2 yrs.' study or res. after the honours degree.

STUDENTS The first students (about 50) were accepted in Oct. 1961, in arts only. Students in arts and sci. (about 200 p.a. each) will be accepted from Oct. 1962.

GENERAL INFORMATION

The earliest recorded petition for a Univ of York was made to James I in 1617 and was followed by a petition to parliament in 1652. In 1947 a deputation from the city of York was received by the Univ Grants Cttee, and a planning cttee was set up. This was taken over by York Civic Trust in 1949 and became their academic devel cttee. In the same yr summer schools in hist res and archit. study were held. The Borthwick Inst. of Hist Res and the Inst of Advanced Archit. Studies were both establd. in 1953. The academic devel cttee hived off from York Civic Trust in 1956 and became York Academic Trust. In 1959 the trust made an informal approach to the Univ Grants Cttee., and in Nov., York Univ Promotion Cttee., representing a wide range of local interests, was formed. In Dec a formal approach was made to the Univ Grants Cttee. and on April 19, 1960, the establd of the univ. was officially approved. The univ's academic planning bd., under chairmanship of Lord Robbins, was apptd in Sept. 1960.

CONSTITUTION A petition for a royal charter of incorporation will be presented during 1962. The draft of the charter provides for govt by court, council, professorial bd and gen academic bd, with the usual officers. The univ will award

its own degrees from the start. During the early yrs there will be an academic advisory cttee., consisting of persons of high academic standing, to guarantee maintenance of satisfactory academic standards.

COLLEGIATE SYSTEM. There is to be a collegiate system whereby every student and every member of staff will be attached to a coll. It is hoped that there will be built up round each coll a body of tradition and loyalties which will carry with it many of soc advantages of the older collegiate system without entailing its academic duplications and rigidity. Teaching will be organized centrally by the univ., but in some subjs will take place within the colls, rather than in separate blocks of lecture rooms.

INCOME Univ Grants Cttee has undertaken to provide recurrent grants from Oct 1962. The county authorities of York and the 3 Ridings of Yorkshire have promised initial annual contributions of £34,000. More than £450,000 has already been offered to the univ from charitable trusts and public companies in York. A public appeal for funds, primarily for bldg purposes, will be launched in 1962.

ADMISSION Details of admission requirements will be announced in 1962.

STUDIES. First degree courses will comprise a major subj. and one or more cognate subsidiaries. Range of subjs will comprise arts, nat scis and soc studies, and a rigid division into facs will be avoided. Strong emphasis will be given to the tutorial system. It is proposed that students of proved ability should be granted a fourth year of trg leading to an MA.

STUDENTS. The first students (about 200) will be accepted in Oct 1963 in arts and soc studies

only, with a further 200 in 1964. From 1965 students in sci will also be accepted.

SITE AND BUILDING. The univ has an initial site of 184 acres at Heslington, within a mile of the city walls. Heslington Hall and the King's Manor in York are two historic bldgs which will house the first 2 colls. At least 2 new coll bldgs will be erected at Heslington by 1965, along with sci labs.

GENERAL INFORMATION

The univ was founded by charter in 1893. This organized 3 univ. colls already existing in Wales into a unified system for the purpose of degree exams. As the result of an enquiry held by a royal commission in 1916-18, a supplemental charter was granted to the univ. in 1920, which introduced many changes, the most important being the establ. of a 4th constituent coll. at Swansea. A further supplemental charter was granted in 1932 providing *inter alia* for the institution of the Welsh National Sch of Medicine as a sch of the univ. At the same time a change came about in the organization of theol. teaching. Theol. had up to this point been taught only in associated theol. colls. The amendment permitted the establ. of schs. of theol., which would combine the teaching resources of univ. colls. and of theol. instns in univ. centres. Two schools have come into being, at Bangor and at Cardiff, but theol. colls. operating on their own still survive and continue to receive recognition (at Aberystwyth, Carmarthen, Swansea, *see above*).

CONSTITUTION. The supreme governing and legislative body of the univ is the univ. court, an assembly consisting of reps. apptd. by local authorities, by the constituent and other colls. and by various instns. connected with educn. and scholarship. The univ. council is the executive body of the univ., and the academic bd. advises the council and court on all academic matters.

GRANT INCOME (1959-60). £2,239,326 (Treasury, £2,163,847; county councils and county borough councils, £75,479).

FACULTIES. Facs. of *arts* and *sci* exist in each of the constituent colls. and operate within the colls. The following facs. do not exist separately

in the colls. but only as univ. bodies, functioning on a univ. level—*archit*, *educn*, *law*, *music*, *rural sci* (consisting mainly of profs. of agric. and allied subs), *technol*, *theol* (consisting mainly of recognized teachers of theol.), *med*. (the senate of the Welsh Natl. Sch of Med.) The academic bd. is constituted mainly of single reps. coming from all the facs.

LIBRARIES. *See* entries for constituent colls. and Welsh Natl. Sch of Med, *below*.

The UNIV. SCHOOL OF EDUCATION (Univ. Registry, Cardiff; tel. Cardiff 22656), which is an area trg. organization, came into being in 1949 and superseded the univ. bd. for trg. colls. It is charged with the duty of surveying the general educn. needs of Wales and Monmouthshire in regard to the educn. and professional trg. of teachers, and of co-ordinating developments and directing long-term policy, so as to formulate a comprehensive system for the trg. of teachers in the area. The organization comprises the univ. educn. bd., the univ. fac. of educn. and the 4 collegiate facs. of educn. at Aberystwyth, Bangor, Cardiff and Swansea. The school awards the teacher's cert. and the art teacher's dipl.

BOARD OF CELTIC STUDIES (Univ. Registry, Cardiff, tel. Cardiff 22656) organizes and publishes results of res. into the hist., lang., lit., laws, customs, archaeol. and art instns. of the Celtic peoples. *Publicans' Bulletin* half-yearly, *Llen Cymru* (journal of literary res.) half-yearly.

GENERAL INFORMATION

The Univ. of Aberdeen derives its origin and endowments from 2 sep. and for a long time indep. foundations. One of these was the univ. founded by William Blythstone, Bishop of Aberdeen, under the authority of a papal bull obtained in 1494-95 at the instance of King James IV, within which univ. was afterwards founded, in 1505, the Coll. of St Mary, subsequently called King's Coll. From this royal patronage, it was held to stand in a specially close relation to the sovereign, and is accordingly styled in acts of the Scots parliament—'our sovereign lord his college and university'. The other foundation was that of Marischal Coll. founded in 1593 by George Keith, fifth earl marischal, under a charter ratified by act of the Scots parliament. Both the above foundations were reconstituted in 1860 as 'The University of Aberdeen', which is incorporated under the Universities (Scotland) Act of 1889.

CONSTITUTION. The univ. court, which controls the finance, property and general admin. of the univ., was constituted a corporate body by the Universities (Scotland) Act, 1889. The members of the court are the rector (president), the principal, the lord provost of Aberdeen (all *ex officio*), an assessor appointed by the chancellor, one appointed by the rector, one appointed by the town council, 4 elected by the general council of the univ. and 4 elected by the senatus academicus. The senatus academicus is charged with the general supervision of teaching and discipline, and is composed of the principal and all profs. of the univ. (*ex officio*) together with certain non-professorial members, the no. of which is controlled by ordinance. The general council consists of the chancellor, the members of the univ. court, profs. and all grads. of the univ., as well as readers and lectrs. of 1 yr.'s standing. The five facs (arts, sci., div., law and med.) consist of profs. assigned to them by ordinance, readers assigned by univ. court after consultation with senatus, other profs., readers and lectrs. apptd. for a certain period by senatus after consultation with or recommendation by the facs. The chancellor is appointed for life by the general council; the rector is apptd. for 3 yrs by the matriculated students of the univ., voting through procurators in four 'nations'; the vice-chancellor is appointed by the chancellor for the purpose, in the absence of the chancellor, of discharging his office in so far as regards the conferring of degrees.

INCOME (1959-60) Total income, £1,120,834 (govt. grants, 81 per cent.; fees, 8 per cent.; endowments, 4 per cent.; other sources, 7 per cent.).

GENERAL INFORMATION

The Univ of Edinburgh was originally 'the Town's College', founded in 1583 by the town council of Edinburgh, under general powers granted by a charter of King James VI, dated April 14, 1582. From the first the coll possessed the privilege of conferring degrees. This privilege was ratified by the 'act of confirmation', passed in 1621, which secured to the 'College of James VI' (as it had come to be called) all the rights, immunities and privileges enjoyed by the other univs of Scotland. Gradually, in acts of the general assembly, of the town council, and of parliament, the 'College of James VI' came to be styled 'the University of Edinburgh'; but it remained under the control and patronage of the town council until 1858, when, by the Universities (Scotland) Act, all the univs of Scotland received new and autonomous constitutions

Royal (Dick) Veterinary Coll., Summerhall, Edinburgh, 9 (tel.: Newington 6801, telegrams: Veter, Edinburgh). Founded 1823, became sch of vet studies within the univ., 1951 (see p 1243)

CONSTITUTION By the Universities (Scotland) Act, 1889, the univ court was constituted a body corporate, it administers the whole univ pro-

perty. The senatus academicus regulates teaching and discipline; the general council is empowered to make representations to the court on all questions affecting the univ's prosperity. The chancellor, elected by the general council for life, is pres of the general council and nominates an assessor in the univ. court. The vice-chancellor is nominated by the chancellor. The principal elected by the curators for life, is pres. of senatus, in the absence of the rector he presides at meetings of univ court, and in the chancellor's and rector's absence, at statutory meetings of general council. The rector, elected by matriculated students for 3 yrs., is pres. of univ. court, and appoints an assessor to it. The court comprises rector, principal, lord provost of Edinburgh, assessor nominated by chancellor, by rector and by town council; 4 assessors elected by senatus and 4 by general council. The senatus comprises principal, profs, and certain readers and lectrs. The general council consists of chancellor, members of court, profs and grads. of univ, as well as readers and lectrs of at least 1 yr.'s standing

UNIVERSITY PRECINCT In the central area of Edinburgh is the old coll., which contains the present univ. library, the univ. offices and, with adjacent bldgs., the facs. of arts and law and the dept. of phys. (The old coll. on the site of 'Kirk o' Field', the scene of the murder of Lord Darnley, was designed by Robert Adam and William Playfair, and completed in 1828). Close to this site lies the med. sch., in immediate proximity to the Royal Infirmary, with the univ. union and the Reid Sch. of Music. Immediately behind these bldgs. is George Sq., where work has already begun on a new arts bldg., and where the new univ. library and a fundamental sci. bldg. are also to be erected. Still in central Edinburgh, New Coll., which houses the univ.'s fac. of div., is situated on the Mound, overlooking Princes St. At West Mains, some 2 miles from George Sq., to the south, the King's Bldgs. provide a fine site for other depts. in the faculty of sci. The outlying depts. of bot. (at the Royal Botanic Garden) and forestry (in George Sq.) will shortly join the other sci. depts. at the King's Bldgs.

LIBRARY Founded in 1580; about 700,000 vols., 4000 MSS and 3000 charters. The MSS. incl. the Laing MSS. (Scottish and misc.), Lang charters, 854-1837 (chiefly Scottish), Arabic and Persian MSS. The chief spec. book collections are the Drummond of Hawthornden (16th-cent. lit.), Halliwell-Phillipps (Shakespeare), Lord Abercromby (archaeol., ethnol.), Blackie (mod. Greek), Bruce (oceanog.), Cameron, Mackinnon and Carmichael-Watson (Celtic), Hodgson (econ.), Berriedale Keith (Indian hist. & lit., and the constitution of the British empire). There is a good med. collection and the valuable Reid music library. There are publ. catalogues of *Printed Books* (3 vols., 1918-23), *Lang Charters* (1899), *Western Medieval MSS* (1916), *Arabic & Persian MSS* (1925) and *Misc.* (1941).

The Jane Findlay Thomson comm. lab. facilitates the training of BCom students in practical business methods. The univ. has a table at the Millport marine stn. The Tate Inst., opened in 1955, provides facilities for res. in mathl. phys.

MUSEUMS. Nat. philos., fine art, geol., nat.

UNIVERSITY PRESS Instituted by the Univ. court in 1945 and administered by a combined cttee of court and senatus which controls the general policy and selects MSS for publication. The main object of the press, rendered possible by bequests applied for the purpose, is the publication, in the best traditions of Scottish typography and book-production, of works of academic merit which cannot be produced on a comm. basis owing to their restricted appeal and may incur a loss, but the cttee are prepared to publish works of wider appeal, though still of literary merit, which will help to offset any such loss. Books published are advertised and sold by Messrs. Thomas Nelson & Sons, Ltd., the sole agents for the press. Sec.—A. R. Turnbull, MA

STUDENTS (1960-61), 276; of whom 48 were reading for univ. qualifs.

GENERAL INFORMATION

The univ was founded in 1451 by a Bull of Pope Nicholas V, on the applan of William Turnbull, bishop of Glasgow. It was established as a *studium generale*, with the privileges of Bologna, and its charter provided for studies in theol., canon and civil law, arts and any other lawful fac.

The business of the univ was carried on with varying fortunes till the Reformation, when its revenues were thrown into confusion. It was given new life by Andrew Melville, who became principal in 1574. In 1577 it was reconstituted by the 'nova erectio', a charter of King James VI which was the foundation of the statutes by which the univ was governed until the Universities (Scotland) Act, 1858.

The 'old college' was situated in the High St for more than 4 centuries, the univ. moved to its present site on Gilmohrhill in 1870. Since the transference was made, a whole range of new bldgs has come into being (see 'Univ Precinct', below).

CONSTITUTION By the Universities (Scotland) Act of 1858, as modified by the act of 1889, the univ. court, upon which senate and general council have representation, controls the finance, properties and general admin. of the univ. The senate superintends teaching and discipline. It consists of the principal (who presides) and the profs (*ex officio*) and readers and lectrs. apptd. by the senate to a max. of one-fourth of the *ex-officio* members. The general council consists of the chancellor, the members of the univ. court and the profs. of the univ., all *ex officio*, grads. of the univ. who have paid the registration fee, and (during their term of office) readers and lectrs. of more than 1 yr's standing. The chancellor is elected for life by the general council. The rector is elected by the matriculated students, is pres. of the univ. court, and holds office for 3 yrs. The office of principal is in the patronage of the crown. The vice-chancellor is apptd. by the chancellor to discharge in his absence his function of conferring degrees. The office has usually been and now is held by the principal.

INCOME (1959-60) Total income, £2,741,377 (govt grants, 78 per cent; fees, 10 per cent, endowments, 5 per cent, other sources, 7 per cent.).

FACULTIES AND DEANS (1961-62). Arts, Prof W. W. Chambers (German), div, Rev Prof R. G. Smith, *engin.*, Prof W. T. Marshall (civil *engin.*), law, Prof. J. M. Halliday (conveyancing), med, Prof C. M. Fleming, sci, Prof C. M. Yonge (zool).

UNIVERSITY PRECINCT Depts accomm. within the univ precincts at Gilmohrhill incl arts, div, law, med, sci and *engin.* together with the library, museum, Bute hall, chapel, officers trg corps headquarters and the admin. offices.

The vet. sch. is accomm. outwith the precincts, at the vet. hosp., Garscube estate, and in the vet.

sch. bldg., Buccleuch St., with addnl. res. and teaching facilities at the field stn., Cochno. Teaching for the degree in agric. is provided partly in the univ. and partly in the W. of Scotland Agric. Coll. in Blythswood Sq. (see above). Med., teaching and res. facilities are provided at the Western and Royal Infirmarys, Southern General, Stobhill, Yorkhill and Dental Hosps. The *engin.* dept. also has res. and teaching labs in an annexe at Spencer St., Anniesland.

The original univ. precinct, extending to about 24 acres, is bounded by Univ. Avenue on the north, by Kelvingrove Park on the east and south and on the west by the Western Infirmary, and contains little possibility of further bldg. devel.

The adjacent devel. area, extending to about 26 acres, is bounded by Univ. Avenue on the south, by Bank St. on the east, by Gt. George St. on the north and generally by the Lilybank Gdns. area on the west. This area also contains few unoccupied sites immediately available for new bldgs. The univ. owns about 8 acres and is acquiring individual houses as these come on the market. An amended plan has been approved for future univ. devel. in the adjoining Hillhead area in which sites have been allocated for a number of important new bldgs. including a refectory and library.

For bldgs. recently completed or approaching completion, see p. 1264.

The LIBRARY, founded in the 15th century, contains over 490,000 vols., including 500 incunabula. Among its many important collections are the Euing, distinguished for the value and variety of its bibles, the Hamilton (philos. works), and the Ferguson (rare bks. on the hist. of chem.); and the Pollok collection of emblem lit. bequeathed to the library in 1958. There are sep. branch libraries for chem. and vet. med. A large READING ROOM serves the needs of undergrads, while there are some 70 class and dept. libraries, among the largest of which are those associated with modern langs. (opened 1960), soc. & econ. res., and the dept. of Soviet instns. The HUNTERIAN MUSEUM, founded in 1783, contains the Hunterian libr., the most valuable of the univ.'s collections of bks. and MSS., as well as important collections of coins, anat. preparations, zool. and mineral specimens, etc.

LABORATORIES. Anat., biochem., bot., chem., *engin.*, forensic med., geog., geol., nat. med., nat. philos., pathol., physiol., pub. health, virol. and zool. As Glasgow stands at the centre of the shipbldg., *engin.*, mining and indust. area of Scotland, it offers unique opportunities for technical trg. There is a well-equipped heat engines res. establ. (Spencer St.). The nat. philos. dept. has a 340 MeV synchrotron. A computing lab. was establ. in 1958, having as its main equipment an English Deuce computer.

There are bot. gdns., a freshwater biol. field stn. (Loch Lomond) and an OBSERVATORY.

TEACHING HOSPITALS 5 large general hospss. (the Western, Royal and Victoria Infirmarys and the Southern General and Stobhill hospss) are available for clinics, besides sp instrns. The dent sch is assoc with the Dent. Hosp (Renfrew St.) The vet. sch. has a recently built animal hosp and a field stn

GENERAL INFORMATION

Founded in 1796 under the will of Prof John Anderson, Anderson's Coll was, in 1886, joined with the Coll of Science and Arts (1823), the first 'mechanics' instrn., itself an offshoot of the original Anderson's Coll, and with the Atkinson Instrn (1861) in the Glasgow and West of Scotland Technical Coll. From 1912 the coll was known as the Royal Technical Coll and in 1956 H.M. the Queen approved the title of the Royal Coll of Science and Technol, Glasgow. The coll. was affiliated with the Univ of Glasgow in March 1913 and was recognized by the University Grants Committee and placed on the list of univ instrns. receiving grant from the Treasury in 1919.

CONSTITUTION. The coll operates under the city of Glasgow Royal Technical Coll scheme, 1935, of the educul endowments commission, and has a bd of governors (30), of whom half are apptd by the bd. and the others are representative of facs, instrns., learned socs and public bodies. The governors are responsible to the Scottish Education Dept for the management of all coll affairs, academic matters are under the immediate control of a bd of studies consisting of hds of depts with reprs of the non-professional staff.

INCOME (1959-60) £859,594 (fees, 12 per cent; donations, etc., 0.4 per cent, endowments, 0.7 per cent, parliamentary grants, 86.1 per cent, other income, 0.8 per cent).

BUILDINGS The main coll. bldg., which is situated in the centre of Glasgow, was completed in 1910. Built on a very liberal scale, it proved adequate for the expanding work of the coll until just before 1939 when a small extension was added. Since then a major extension for mech, civil, chem and mining engin, and a large students' union have been added and bldgs. acquired for a dept of food sci and the sch. of navigation. The gift of a mansion house and grounds near Glasgow in 1955 provided the nucleus of what is now a residential centre for management studies. Site work began on further extns to occupy total island area and to house chem., chem engin, chem technol and mech. engin. These should total 153,000 sq. ft. and the rehousing will give an opportunity to other depts for much-needed expansion.

LIBRARIES The Andersonian libr, commemorating the founder of the coll, houses an extensive range of technical and scientific publications. (over 54,000), incl many of historical interest, the founder's libr and the James Young collection of early alchemical, metall. and chem books. There are also deptl libr.

LABORATORIES. Ample facilities for undergrad. and postgrad. work of the highest standard.

ADMISSION. Admission to courses leading to

degrees of the Univ of Glasgow is conditional upon obtaining an attestation of fitness from the Scottish Univs' Entrance Bd (see Appendix III). The conditions for admission to associateship courses are broadly similar, except that a pass in a foreign lang is not essential. Students wishing to read for external degrees of the Univ of London must satisfy the admission requirements of that univ (see Appendix III).

COURSES Under the affiliation ordinances, the coll provides full qualifying courses for hons degrees of the Univ of Glasgow in civil, mech, chem., electr and mining engin, appl chem, appl chem (metall.), appl. chem (ceramics), pharm, archit., appl. bacteriol, food sci., textile sci, and in appl maths, appl phys. for the Univ of Glasgow ord degree BSc(Tech). For the associateship of the coll (ARCST), courses of 4 yrs. are provided in civil, mech, electr, chem and mining engin, naval archit, appl chem, metall, ceramics, appl maths, appl phys, pharm, food sci., microbiol, bldg and textile technol. Entrance qualifs for the associateship courses are given in the *Prospectus of Full-time Courses*.

Courses (1 yr) for coll postgrad dipl. in advanced studies (DRC) are available in appl maths, appl phys, chem. process devel, polymer sci; extraction metall; phys metall; mech engin, power engin (incl nuclear power), prodn engin, civil engin, struct engin, environmental control engin & resource utilization, electr. engin, mining engin, mining geol; appl geophys, pharmaceut. chem; appl biochem, naval archit, food sci., microbiol.; textile technol, town planning.

The Glasgow Sch of Archit is constituted by the depts of archit. in the coll. and the Glasgow Sch of Art under a jt. cttee of governors, and issues dipls in archit (5 yrs) and postgrad dipls in town planning (5 terms).

The dept of indust admin in the coll, together with the dept of business admin in the Scottish Coll of Commerce, form the Glasgow Sch of Management Studies under a jt. cttee of governors and make jt. provision of courses in personnel management (1 yr), indust management (1 yr) and dipl in management studies (4 yrs pt-time). The coll residential centre for management studies at 'Chesters', Bearsden, nr Glasgow, has accomm. for 54 students. A sp feature of the work of the centre is a series of short full-time courses for persons nominated by firms.

In pt-time classes the coll offers a very wide range of technol courses at advanced and postgrad. level. Under the scheme of the W. of Scotland cttee for technical educn., the coll classes form the apex of an educul. pyramid, and pt-time

students from all parts of the W. of Scotland can complete their courses at the Royal Coll of Science and Technol. The courses below advanced level are conducted by the various education authorities.

RESEARCH. Students can pursue res for higher degrees of the Univ of Glasgow and for coll postgrad dipl. In addn to fundamental res, the coll. works in close co-operation with res assocns and industry. This is a sp. feature of coll. policy, which adds greatly to its res. resources and makes possible work on problems of current interest, sometimes on pilot plant and even larger scale. *A Report on Research* is publd annually by the coll.

TUITION FEES. Degree courses—engin, appl chem., pharmacy and archit., associateship courses, and other non-degree courses, postgrad courses, £55 p.a., environmental control engin & resource utilization, £75 p.a. Fees for courses in indust admin and for pt-time classes are shown in the relevant prospectuses.

ACADEMIC YEAR. Oct to June. 3 terms of 10 wks each.

FORMER STUDENTS' ASSOCIATION. Formed in 1936. Copies of the *Annual Report* of the coll are circulated to all members and social functions

arranged regularly. A live register of members is kept by the hon. sec at the coll and members going overseas have valued the introductions provided by the assocn. Branches of the assocn. are active in Glasgow, London, Newcastle upon Tyne, Birmingham, S. Africa, Canada and Norway. Life membership is available to qualified applicants at a fee of £15.

RESIDENCE. Lochview Hall, 1085 Gt Western Rd., Glasgow (tel.: Kelvin 3262), accomm. 50 male students. Fees £3.10s per week.

STUDENT ASSOCIATIONS. The student body acts through the students' representative council and joins with others in the Scottish Union of Students. There is a sports ground at Cambuslang and there are the usual facilities for indoor games. The coll. has a mod. gymnasium with a phys. trg. instr. A large new union has just been completed.

GENERAL INFORMATION

Queen's College was establd by royal charter in 1845, opened in 1849, and linked with colls at Cork and Galway as the Queen's Univ. in Ireland in 1850. Originally there were three facs, arts (with sci and lit divisions), med and law. In 1879 Queen's Coll became a constituent coll of the Royal Univ of Ireland. The governing body was the purely academic coll. council. At the turn of the century private benefactions led to increased bldgs. and addtl staff. In 1908 the coll became the Queen's Univ. of Belfast, the Royal Univ of Ireland being dissolved in the following yr. The senate became the governing body, consisting of reps of the public life of Ulster, of the profs and of grads. The identification of the new univ. with the interests of Ulster became closer on the establt in 1920 of the govt of N. Ireland from which the univ's income is largely derived on the advice since 1945 of the Univ. Grants Cttee. Since Queen's Coll. became a univ the following facs have been added to the original 3 in 1910 sci and econ.; in 1921 appl. sci & technol with the co-operation of the Belfast Coll. of Technol., in 1924 agric., whose work is co-ordinated with that of the Ministry of Agric for N. Ireland; and in 1926 the fac. of theol, most

of the teaching for which is given in the Presbyterian Coll., Belfast, and in Edgehill Theol. Coll., Belfast.

CONSTITUTION The authorities of the univ are the chancellor, who is the titular chief officer, the pro-chancellors (of whom there may be 3), the pres and vice-chancellor, who is the principal academic and admin. officer, the senate, which is the governing body; the academic council, which is the body of profs and certain lectrs. responsible for internal academic affairs, the gen. bd of studies, which considers courses of study and recognition of colls. and teachers, the facs, and convocation, the statutory body of grads, which elects the chancellor and 8 members of senate and may consider any matter referred to it by senate.

INCOME (1959-60) Total income, £987,743 (parliamentary grants, 74 per cent.; endowments, 14 per cent., local authorities, 19 per cent., fees, 159 per cent., payments by govt depts, 27 per cent., other items, 41 per cent.).

Such students must attend lectures at Trinity Coll. for at least 1 term in the 3rd & 4th yrs. Full details on applicn. to sr. tutor, Trinity Coll.

GENERAL INFORMATION

Trinity Coll. was founded and incorporated by royal charter in 1592 as 'mater universitatis', but no other coll. has been founded, so that 'Dublin Univ.' and 'Trinity Coll.' are practically interchangeable terms. The original charter granted

very full legislative powers to the provost and sr. fellows, who constituted the bd. Legislation of Charles I. took away many of these powers, which were reserved to the crown. By letters patent of 1911 the crown again granted wide powers of

making statutes to the corporation, subject to the consent of a majority of the fellows and the approval of the visitors.

The coll occupies a large site in the middle of the city, with ample grounds for recreation and athletics.

CONSTITUTION The general govt of the coll is in the hands of the bd. of Trinity Coll, which consists of the provost, sr fellows, 4 reprs of jr fellows and 2 reprs of the non-fellow profs. The univ. council, formed by reprs from the bd and various facs and schs, has the right of nomination to most professorships, and in conjunction with the bd can make changes in the curriculum, but otherwise has only advisory functions.

GENERAL INFORMATION

Queen's Univ in Ireland, founded in 1850 to link the Queen's Colls of Belfast, Cork and Galway, was replaced in 1880 by a purely examining body, the Royal Univ of Ireland. In 1908 the National Univ of Ireland was established, with Univ Coll, Dublin, and the colls hitherto known as Queen's at Cork and Galway as constituent colls. The Queen's Univ of Belfast (in effect Queen's Coll, Belfast, raised to univ. rank) was established in the same yr, and the Royal Univ was dissolved in 1909.

GENERAL INFORMATION

The coll. had its origin in the Catholic Univ. of Ireland, founded in 1851. From 1851 to 1859 its rector was Dr John Henry Newman. In 1854 its facs of theol., philos., letters and sci. began their work and in 1855 the fac. of med was formally opened in Cecilia St., where it continued to operate until 1932. The foundation of the Royal Univ in 1879 led to a change of title (1883) by which what had originally been St. Patrick's House in the Catholic Univ. became the seat of Univ Coll., Dublin. From 1883 until the passing of the Universities Act, 1908, the coll was administered by the Jesuit Fathers. Under that act and by royal charter of Dec. 2, 1908, it was re-established as a constituent coll. of the National Univ. of Ireland.

By the University Education (Agriculture and Dairy Science) Act, 1926, the Royal Coll. of Sci and the Albert Agric. Coll were transferred to Univ Coll, Dublin, which was empowered to continue the functions formerly fulfilled by these instns

GENERAL INFORMATION

The South African Coll, founded in 1829 as a
private venture by the churches and citizens of
Cape Town and its neighbourhood, was until
1874 a combined primary and secondary sch
with a tiny univ. section at the top. Although the
coll had always had a senate, it was only in 1879
that the governing power passed from the body of
shareholders to a council. In 1887 College House,
the first univ. residence south of the Sahara, was
opened and in the same yr. the general admission

of women was granted. Courses in law were
added to the arts and sci courses. From 1900 to
1918 the coll. expanded. There were the begin-
nings of the schs. of med, engin, and educn, the
opening of the first women's residence and finally the
incorporation of the coll. in the univ which
was created by Act 14 of 1916 and came into legal
existence on April 2, 1918. The council took over
a bequest by Sir Julius Wernher of £250,000 and
a donation of equal amount from Sir Otto Beit,

who added £50,000 to a lapsed bequest by Mr Alfred Beit.

A site for the univ was provided by govt at Groote Schuur, Rondebosch. Over the past 40 yrs this has been devel (see 'Univ Precinct and Location', *below*) by the erection of tutorial bldgs, several student residences and the Jameson Memorial hall. The univ has expanded through the incorporation of the S A Coll of Music, the creation of facs of comm, soc sci, &chs of African studies, fine art and archit. and the growth of existing facs. Further land adjacent to the site has been purchased and med. bldgs. erected. Greater expansion is envisaged in view of the post-war increase in population and rapid scientific developments.

CONSTITUTION The hd of the univ is the chancellor, the chief academic officer is the principal, who is *ex-officio* vice-chancellor, the governing body is the council, which consists of the principal (*ex officio*), 5 members nominated by the govt., 6 members elected by convocation, 3 by the old students' constituency, 1 by the diocesan coll constituency, 3 profs by senate, and 2 members elected by Cape Town corporation. The control and management of discipline and instruction within the univ is in the hands of the senate, which consists of the principal, the profs, 2 members elected by the council and 2 assessor members elected by the lecturers' assocn. of the univ.

Convocation, which consists of the profs and lectrs of the univ and its grads., elects the chancellor, 6 members of the council, and a pres of convocation; it may discuss any matter relating to the univ, and may communicate directly with the council or the senate.

INCOME The total revenue for the year 1960 was £1,058,279 (govt grants, 64.1 per cent; fees, 33 per cent; endowments, etc., 2.9 per cent).

FACULTIES Arts, comm., educn., engin., fine art & archit., law, med, music (incl ballet and opera schs.), sci and soc. sci. Deans, except of fac. of med., are apptd. annually.

UNIVERSITY PRECINCT AND LOCATION The main bldgs, designed chiefly by Sir Herbert Baker, are set on the Cecil Rhodes estate, Groote Schuur, against the background of the eastern slopes of Table Mountain and Devil's Peak, approx. 5 mls from Cape Town. The site commands a superb view. These bldgs house all facs except comm., med. and music, which are situated, respectively, in Cape Town, Mowbray (2 mls from the main bldgs) and Rosebank (2 mls from the main bldgs).

LIBRARY 330,000 vols, 35,000 pamphlets. Includes med lib. (41,000 vols); music lib.—books (4,500), scores (19,000) and records (6,300), archit. lib. (6,700 vols); Van Zyl law lib. (early

Roman-Dutch law) and Bolus bot lib. The Bolus herbarium includes the Guthrie collection of Cape flora.

TEACHING HOSPITALS Groote Schuur H., Cape Peninsula Maternity H., Mowbray Maternity H., Red Cross War Memorial Children's H. and certain wards in Somerset H.

ADMISSION TO SOUTH AFRICAN UNIVERSITIES* The qualif. for entrance to a course of study for a first degree of any univ in South Africa is the matric. cert. of the Joint Matric Bd. for the nine univs. in South Africa, or a cert of exemption issued by that bd. A successful candidate at the matric. exam. may be awarded *either* a sch. leaving cert *or* a matric cert, depending upon the subs. passed, the standards attained in specific subs., and aggregate marks. The sch. leaving cert. is not an entrance qualif. for a course leading to a degree, although it may be accepted by the univs. for admission to courses of study leading to certain dipls. and certs.

Approved subjects for the matric. exam. The list of approved subjects is as follows:

Section A. (1) Afrikaans (H. or L.) §, (2) Engl (H. or L.); (3) Nederlands (H. or L.), (4) German (H. or L.), (5) Bantu langs (H. or L.); (6) Latin, (7) Greek, (8) French, (9) Hebrew, (10) Portuguese; (11) Italian, (12) maths; (13) phys. sci. (not to be taken with 14 or 15), (14) phys.; (15) chem.; (16) biol (not to be taken with 17 or 18), (17) bot, (18) zool, (19) geol, (20) geog; (21) hist.

Section B. (22) agric; (23) housecraft & hygiene, (24) book-keeping & comml. arithmetic, (25) shorthand & typewriting; (26) addnl. maths. (may not be taken without maths); (27) mechanics (may not be taken with phys. or without maths); (28) art; (29) music; (30) book-keeping [as from Nov/Dec. 1963] (not to be taken with 24).

No lang may be taken on both the higher and the lower grade.

Candidates are required to take, at one and the same exam., not fewer than 6 or more than 7 subs., and to pass in not fewer than 5 subs. with not less than 33½ per cent in each of the 5, and obtain a fixed min aggregate, the aggregate for the matric cert being 1000 marks and that for the sch. leaving cert. being 800 marks. Candidates so passing obtain *either* sch. leaving certs if the subs. passed incl. (i) an official lang (i.e. Engl. or Afrikaans) on the higher grade and (ii) another lang., *or* matric certs., if the subs. passed incl. 4 subs. in each of which the candidate has obtained the matric standard of 40 per cent, viz (i) an official lang (i.e. Engl. or Afrikaans) on the higher grade, (ii) the other official lang., on the higher or lower grade, or an approved Bantu lang. on the higher grade or Latin or Greek or French or

* A full and official statement of the matric. requirements of the South African univs is contained in the annual *Matric Exam Handbook* publ. by the Joint Matric Bd., P.O. Box 392, Pretoria, South Africa. Full details of each univ's fac and deptl prerequisites, which are addnl. to the Joint Matric Bd's requirements, should be obtained direct from the registrar of the univ., not from the Joint Matric Bd.

§ H.=higher grade, L.=lower grade.

German or Italian or Portuguese or Hebrew, (III) maths or a sci., (IV) maths if not taken under (II) or another lang. from (II) or hist or geog. or a Bantu lang. on the lower grade (provided that a Bantu lang. on the higher grade has not been offered under (II)) or other lang. in which the bd. decides to conduct an exam. Candidates who are awarded a matric. cert. must have *either* (i) included in their 4 subsy. maths or an approved lang. other than Engl. or Afrikaans or (ii) taken maths or an approved lang. other than Engl. or Afrikaans as a 5th suby., and obtained not less than 333 per cent. of the total marks. *Note* (i) a candidate whose home lang. is a Bantu lang. may present a recognized Bantu lang. in lieu of Engl. or Afrikaans (higher grade) under (i) above. In such cases both Engl. and Afrikaans must be passed on at least the lower grade. Likewise a candidate whose home lang. is German, who is attending sch. in S-W Africa and whose parents are/were domiciled in S-W Africa, may present German (higher grade) in lieu of Afrikaans or Engl. (higher grade). In such cases the candidates must *enter* for both Engl. and Afrikaans, one of which must be on the higher grade, and *pass* in both Engl. and Afrikaans on at least the lower grade (a mark between 30 per cent. and 39 per cent. in the higher grade being recognized as equivalent to 40 per cent. on the lower grade) (ii) As from Nov./Dec. 1963 an approved lang. other than Engl. or Afrikaans will be defined as Latin, Greek, French, German or an approved Bantu lang. (iii) As from Nov./Dec. 1962 a candidate must have passed in *either* 2 langs plus maths, or 3 langs if he does not pass in maths.

The four provincial depts of educn in the union (Cape, Natal, Orange Free State and the Transvaal), and the Dept. of Educn, Arts and Sci., conduct exams. for a sr. cert. on syllabuses approved by the bd. These exams are recognized by the bd. for exemption from its own matric exam subject to conditions prescribed by the bd.

Faculty and departmental requirements Although the bd's matric cert. or cert. of exemption is the normal requirement for admission to a univ., certain subsy. are prescribed by the univs. as prerequisites for enrolment in some depts. or facs. A student is advised to have a broad general educn. and to take for the matric cert. at least 2 of the subsy., maths, Latin, Greek, French, German, in addition to both official langs., i.e. Afrikaans and Engl. Maths is essential for agric., archit., engin., for, med., and quantity surveying, and highly desirable for courses in accty., land surveying and sci. A knowledge of Latin of matric standard is necessary for law. Further particulars of fac. and depts. requirements should be obtained direct from the registrars of the individual univs., not from the Joint Matric. Bd.

Overseas examinations The bd. recognizes for purposes of exemption sch. certs. issued by a number of overseas bodies if the certs. entitle the holder to unconditional admission to an approved univ. in the country of origin and the subsy. passed

and the standard attained are in accordance with the bd's regns. for its own matric. cert. As examples, a credit in a suby. for the Cambridge Overseas Sch. Cert. is accepted as equivalent to a '40 per cent. pass', and a pass in a suby. for the Higher Cert. of the Oxford & Cambridge Schs. Exam. Bd. and a pass at ordinary level in the General Cert. of Educn. are similarly accepted. Exemption is given suby. for suby. (Engl. lang. but not Engl. lit., is recog. as fulfilling the requirement for exemption from Engl.) The bd. is, however, not prepared to recognize a Bantu lang. of the Cambridge Overseas Sch. Cert. as equivalent to a Bantu lang. at a South African exam. The bd. may issue either a cert. of full exemption or a cert. of conditional exemption which may be converted into a cert. of full exemption if the holder fulfils specified conditions within a prescribed time. For full exemption on the strength of the Cambridge Overseas Sch. Cert. or the General Cert. of Educn., the bd's requirements include passes in 2 subsy. at principal or advanced level.

Overseas qualifs. recog. by the bd. incl. the Sch. Certs. awarded by each of the 9 examining bodies in England and Wales recog. by the Ministry of Educn. for England and Wales (*see below*); the General Certs. of Educn. awarded, in and after 1951, by the same 9 examining bodies, the Higher Sch. Certs. of 6 of these examining bodies (i.e. Oxford & Cambridge Schs. Exam. Bd., Northern Ir. Matric. Bd.; London Univ.; Oxford Local Exams. Delegacy; Univ. of Cambridge Local Exams. Syndicate, Central Welsh Bd.), inter. exam., 1st class, of Indian univs., matric. or other entrance cert. of other approved univs., leaving cert. of educn. depts. or secondary schs. entitling holder to admission to an approved univ., leaving certs. of educn. depts. of Scotland and Eire, Sr. Cert. of Educn. Dept., N. Ireland, Forces Prelim. exam.; Passing-out exam. of Royal Naval Coll., Dartmouth, Hoof-dakte (Holland); eenddiploma of a gymnasium or hogere burgherschool with 5 yrs' course (Holland); Akte van Bekwaamheid als Hoofdonderwijzer (Holland); dipl. of the Technische Hogeschool (Delft); eenddiploma of the Middelbare Technische Sch. (Holland); eenddiploma of the Middelbare (or Koloniale) Landbouwschool (Holland); eenddiploma, gymnasium, Holland; dipl. of the École Supérieure de Jeunes Filles, Switzerland; abiturium at a gymnasium or oberrealschule in Germany or Switzerland; maturitätszeugnis or zeugnis der reife at gymnasium or oberrealschule in Germany or Switzerland; baccalauréat (Bès Lettres, or Bès Sciences or Ben Drott), France; Italian licenza di maturità classica and licenza di maturità scientifica, matric. cert. of the Ministry of Educn. & Culture, Israel, cert. of the 3rd cycle of a Portuguese lyceum; Greek apolytrion.

Special exemption. Non-matriculated candidates over the age of 25 who desire to proceed to a degree and are not eligible for exemption under the ordinary regns. may, under certain conditions, be specially exempted from matric. on the recommendation of a univ. Such candidates cannot be

admitted to a degree unless they have not only completed the curriculum for the degree but have also fulfilled any other conditions for exemption from the matric exam.

GENERAL INFORMATION

Established by an act of 1909, Natal Univ Coll was opened in 1910 in the town hall and moved in 1912 to its own bldgs in the suburb of Scottsville, Pietermaritzburg. A new sci. block and a women's hall of residence were added in 1921 and a residence for men in 1928. A new wing was added in 1934 and a library and fine arts sch. in 1936. In 1926, a site of 50 acres at Stellawood, Durban, was presented by the corporation of the city of Durban, for the erection of an engin. coll., and £50,000 was donated by Mr T. B. Davis in 1924 for this purpose. Howard Coll., as it is called to-day, was opened in Durban in 1931. A new comm. bldg., situated on a central site in the city of Durban, was added in 1936. By virtue of Act no. 4 of 1948, the Natal Univ Coll was incorporated as the Univ of Natal. It came into legal existence as an independent univ. on March 15, 1949, and, in addn. to fulfilling its previous functions, is now entitled to examine its own students and grant degrees and dipl.

CONSTITUTION. The univ. consists of the chancellor, vice-chancellor, principal, council, senate and convocation; the profs, lectrs and other teachers, the dirs. or hds. of res. insts. controlled by the council, and the students of the univ. The chancellor, elected by the council, is hd. of the univ., and as such is empowered, in the name of the univ., to confer all degrees. The chief academic and admin. officer of the univ. is the principal, who is *ex officio* a member of the council and chairman of the senate. The council, which elects its own chairman, is the governing body of the univ. and administers its affairs and property.

INCOME (1960). Total income, £849,748 (govt. grant, 69.9 per cent.; annual grants from public bodies, 2.5 per cent.; interest on investments, rent received & sundry income, 0.8 per cent.; fees, 26.8 per cent.)

LOCATION. The univ. is the only univ. inst. in S. Africa which functions in two large cities, viz. Pietermaritzburg and Durban. These cities are 56 mls. apart. One council and one senate control the univ. as a whole, and meetings are held in alternate centres. A certain amount of duplication of work in both centres is inevitable. The facs. of arts (and dept. of fine arts), sci., law, educn. and agric. function in Pietermaritzburg. In Durban, the facs. of arts, med. and sci. (with limited choice of subjects), law, engin. & comm. & pub. admin., soc. sci. and dept. of archit. function

Founded in 1869, the present univ. was incorporated in 1921 as a constituent coll. of the Univ of South Africa under the name of 'The Potchefstroom University College'. An amendment to the Potchefstroom Univ Coll. Private Act was passed by parliament in 1933, reinstating the original name Potchefstroom University College for Christian Higher Education. In 1950 parliament passed a private act whereby the coll. became an independent univ. as from March 17, 1951.

CONSTITUTION. The univ. consists of the chancellor, vice-chancellor, principal, council, senate and convocation, the profs, lectrs and other teachers; and the students. The chancellor, elected by the council, is the head of the univ. and as such is empowered to confer all degrees. The chief academic and admin. officer is the principal, who is *ex officio* a member of the council, and chairman of the senate. The hds of academic depts and hds of res. insts are members of the senate. The council, which elects its own chairman, is the governing body of the univ. and administers its affairs and property.

GENERAL INFORMATION

Founded 1908, when univ. classes in arts, sci and law were establ. at Pretoria by the Transvaal govt. and placed under the control of the council of the Transvaal Univ Coll., Johannesburg, the constitution of that body being altered so as to give Pretoria equal representation. A separation took place in 1910, the Johannesburg section being reincorporated as the S.A. Sch. of Mines and Technol., whilst the Pretoria section retained the name of the Transvaal Univ Coll. The facs. of agric (1917), theol (1918), comm & pub. admin. (1919), vet sci (1920), music (1923), had also been establ. when by act no. 13 of 1930 the coll. was incorporated as the Univ of Pretoria. The following facs have been establ. since 1930: educn., med., dent. and engin.

(b) It is also a res. inst. whose work falls under direct control of dept of agric of the union govt. In this respect it functions as a division of the dept.

GENERAL INFORMATION

The beginnings of Rhodes Univ date from 1855, when St. Andrew's Coll. was founded at Grahamstown. For many yrs this sch prepared students for degree exams, as well as for the usual sch exams. In 1878 the sch establd. a separate coll. dept for the purpose of preparing students for the exams. of the Univ. of the Cape of Good Hope. In 1904, generous financial support from the Rhodes trustees, the citizens of Grahamstown and the public bodies of the Eastern Cape, made it possible to separate this coll. dept. from the sch, and it was incorporated by act of parliament as Rhodes Univ. Coll. The coll. continued to prepare students for the degrees of the Univ. of the Cape of Good Hope until 1916, when it became a constituent coll. of the Univ. of S. Africa. In 1949, parliament passed an act incorporating the coll as Rhodes Univ, which came into being on March 10, 1951. From the same date (up to 1959), the S. African Native

Coll. (now the Univ. Coll. of Fort Hare) was affiliated to the new univ.

The univ. now owns an impressive array of bldgs. erected progressively since 1914 on an excellent site, the nucleus of which was donated to the coll. by the govt. All the bldgs, which comprise admin., academic and residential blocks, are situated within easy reach of one another, and of the univ. sports fields.

Grahamstown is a town with a population of about 32,000, of whom over half are non-Europeans. The students of the univ. are, however, drawn from all parts of the Union and the Fed. of Rhodesia & Nyasaland.

For a note on the Port Elizabeth Division see 'The Year 1960', below.

CONSTITUTION. The univ. consists of the chancellor, the principal, who is *ex officio* the vice-chancellor, the vice-principal, who is *ex officio* the

pro-vice-chancellor, the council, senate and convocation, together with the profs, lectrs, other teachers and the students.

GENERAL INFORMATION

The Univ. of Stellenbosch had its origin in the Stellenbosch Gymnasium founded in 1866. In 1881, by private act of parliament, the arts dept. of the gymnasium was granted a charter as Stellenbosch Coll. In 1887 (the yr. of the golden jubilee) Her Majesty consented to the coll.'s being named 'The Victoria Coll. of Stellenbosch'. By the Univ. of Stellenbosch Act, No. 13 of 1916, the coll. was incorporated on April 2, 1918, as the Univ. of Stellenbosch, and in addition to fulfilling its previous functions is entitled to examine its own students and grant degrees.

By Act No. 45 of 1926, the Elsenburg Sch. of Agric. and the fac. of agric. of the univ. were amalgamated to constitute the Stellenbosch Elsenburg Coll. of Agric. of the Univ. of Stellenbosch, which 'shall be for all purposes the fac. of agric. of the univ. and shall have all such rights and privileges and be subject to all such duties as are laid down by the Univ. of Stellenbosch Act, No. 13 of 1916'. In close connexion with the univ. is the Western Province Fruit Res. UNIVERSITY ADMISSION

QUALIFICATIONS FOR ENTRY TO FIRST DEGREE COURSES :

(A) <i>Australia</i>	.	p. 1391
(B) <i>Canada</i>	.	p. 1401
(C) <i>United Kingdom</i>	.	p. 1423

(A) AUSTRALIA

[The statement which follows relates only to the admission of students proposing to take full courses leading to a first degree. For information regarding admission to courses leading to higher degrees, see the entries for the several univs, above.]

GENERAL NOTE

The primary and secondary educnl systems of the Australian states are the responsibility of the various state govts. Consequently they differ in many respects. However, they are all alike in that they prepare students to the standard necessary for matric. at the univ. or univs. establ. in their home state. In all cases there is some liaison between the state educnl system and the univs. in that state to ensure that candidates coming forward to the univs. will be able to comply with the matric. requirements.

In Australia, each univ. controls its own admission requirements. Thus the Univs. of Adelaide, Melbourne, Monash, New England, New South Wales, Queensland, Sydney, Tasmania and Western Australia, and the Australian National Univ., have individual matric. requirements which are specified below.

The Australian National Univ. comprises 2 sections, namely the inst. of advanced studies and the sch. of general studies. The inst. is concerned with postgrad. res. and study and does not conduct courses leading to a first degree. The minimum academic requirement for admission as a student studying for a doctor's degree is a first degree with hon. from a recognized univ., but the inst. needs to be satisfied as to the student's

capacity for res. The sch. of general studies (formed from the former Canberra Univ. Coll.) is responsible for courses leading to the degrees of bachelor or master. For 1961 and 1962 a person qualified to be admitted to any Australian univ. will be granted matric. status in the sch.

The admission requirements of the Australian univs. have the same purpose, being designed to ascertain whether candidates are educationally fitted to undertake courses leading to a first degree. This may be done either at a public exam. open generally to secondary sch. students or at a sp. matric. exam. conducted by the univ. In some cases passes are required in sp. subjs. for entrance to the different facs., in addn. to the requirements for matric.

Although the requirements for entrance to the various univs. are not uniform, all possible reciprocity is exercised in the interchange of students, whether from Australian or British univs. In general the univs. will admit to matric. *ad eundem statum* a student who has matriculated or qualified to matric. at another univ. of recognition, but in some cases passes in particular subjs. at matric. standard, or in compulsory 'prerequisite' subjs. for particular courses, may be required.

Sp facilities are offered for matric in some univs to persons of mature age who have not had the opportunity of qualifying in the ordinary way and who pass certain sp entrance tests

The table below shows the public exams in each state recog by the univs for matric pur-

poses, except as indicated by an asterisk. The exams. are fully recog only by the univ conducting them, though, as mentioned above, qualification by a student for matric at the univ of his home state is generally recog, in so far as standard is concerned, by the other Australian univs

Note—The age of transfer from primary to secondary sch. varies from state to state, ranging from 12 yrs in Victoria to 14 yrs in Queensland

The average age of entrance upon univ study is 17 plus in most states, 18 plus in Queensland

Exams are also conducted in music in each state under the general auspices of the Australian Music Exams Bd Passes in appropriate grades at these exams are accepted as passes at leaving

cert. standard and, consequently, for matric purposes, in most states In Victoria, however, the exams are recog for purposes of inter and leaving cert. exams but the Univ of Melbourne conducts its own exams in matric music.

SPECIFIC CONDITIONS

ADELAIDE

The minimum age for matric is 16 yrs

South Australian Candidates

In general the requirements for matric in the Univ of Adelaide are 5 subjs. taken at the leaving exam held annually in Nov-Dec and chosen from the following groups with certain subjs specified for the various facs. as follows.

Group A Engl

Group B. (i) Latin, Greek, French, German, and such other langs. as may be approved for matric. purposes by the council on the recommendn of the matric bd ;
(ii) anc. hist., mod hist., econ hist., econ, geog., music.

Group C. (i) maths pt. I, maths pt II ;

- (ii) phys., chem., geol., bot.,
physiol., agric. sci.

Group D. Arith., drawing, book-keeping

(a) To fulfil the educnl requirements for matric a candidate must

- (i) pass in at least 5 subsj from groups A, B, C and D, above, incl at least one subj from each of groups B and C, *provided that if either maths pt I or maths pt II is counted, arith cannot be counted*,
- (ii) include in his 5 subsj at least one subject from section (i) of either group B or group C,
- (iii) *either* pass in Engl lit. as one of the 5 subsj, *or* satisfy the examiners of his ability to use the lang as an instrument of expression

The qualif in Engl obtained by a candidate who has satisfied the examiners of his ability to use the lang as an instrument of expression shall not count as a subject

(b) The attention of intending candidates is drawn to the fact that, although such requirements do not form part of the general requirements for matric, in some 1st-yr subsj at the univ either a pass in the corresp subject at matric standard is prescribed for admission to the class or a knowledge of the subject at matric standard is assumed

Attention is drawn to the following.

(a) *Lang other than Engl* At least one course in Greek, Latin, French or German is compulsory for the ord BA degree. No candidate may take the course in Greek I, Latin I, French I or German I until he has passed in the corresp subject at the leaving exam. or at an exam accepted by the univ as equivalent.

(b) *Maths* Courses in maths. are compulsory subjects in the engin course; further, a 1st-yr course in maths will for many candidates be an essential or desirable subj. in certain other courses (e.g. sci.) No candidate may be admitted to a 1st-yr class in either until he has passed *either* in leaving maths pts I and II *or* in an exam accepted by the univ. as equivalent.

(c) *Phys and Chem* Although a pass at leaving standard is not a prerequisite for admission to the classes in 1st-yr. phys. and chem., the syllabuses in these subsj presuppose a knowledge of phys and chem at leaving standard

(d) *Music* Harmony II is a compulsory subject in the 1st yr of the course for the MusBac degree, and no candidate will be admitted to the class in that subj until he has *either* passed in the theory of music at the 7th grade of the public exams in music *or* in a sp entrance exam. in the theory of music of equivalent standard

(e) *Law* A pass in Latin at leaving standard is a prerequisite for entry to the class in Roman law, an optional subj in the LLB degree course.

(f) *Building Sci.* The syllabus in this subj presupposes a knowledge of chemistry at leaving standard.

Candidates from other Australian States

Matric in any other Australian univ is accepted provided that the subj and grouping requirements, as prescribed for S Australian students, are met. A candidate whose qualifs for matric in the univ of his own state do not incl one or more of the subsj specified by Adel is required to pass in only the outstanding subj or subsj.

Overseas Candidates

(a) *United Kingdom, Canada, Ceylon, New Zealand and South Africa* Qualifs which entitle the holder to matric in the corresp fac in any recog univ. of any of the Commonwealth countries listed above are accepted, provided that the subj and grouping requirements, as prescribed for S Australian candidates, are met. The English G.C.E. is accepted on a basis similar to that required by English univs, provided that certain subsj (other than Engl) specified at leaving standard by Adel have been passed at the advanced level

(b) *Other parts of the British Commonwealth* The requirements for candidates from other parts of the Commonwealth, esp from southern and eastern Asian countries, in general conform to those of U.K. univs., so far as standard is concerned, and incl the specially prescribed subsj required by Adel. of its local candidates

Candidates from India and Pakistan are required to have passed at a good standard in their own univ's inter exam in arts or sci. and to have incl in that exam Engl and such other subj or subsj as may be prescribed for S Australian candidates

(c) *Other overseas students* A candidate may be admitted to matric. who (i) holds a cert. which qualifies him for matric in a recog. European or United States univ, provided that the subjects specified in the Adel requirements are included and provided also that the cert contains at least one mod lang and lit.; (ii) in the case of a candidate whose native lang. is not Engl., has passed in a standard Engl test; and (iii) has passed in the prescribed fac prerequisites as follows:

Sci and engin (and for admission to the class in maths I) Either maths. I and II at the S Australian leaving exam or (in approved cases only) a sp. exam in maths of equivalent standard

A candidate who is unable to present acceptable evidence of matric work done elsewhere must pass in appropriate subjects at the S Australian leaving exam.

Mature Age

No provision is made for modification on account of age of the normal requirements for matric

Special Cases

The matric. bd. may consider applcns. from candidates who have qualifs. in secondary educn.

but have not satisfied the normal requirements for matric. The bd usually does not exempt such a candidate from the specified entrance requirements, but it may admit him for 1 yr under conditions which it specifies and which must be fulfilled within 1 yr

Last Date for Receipt of Applications

The last day of enrolment for local candidates is the 7th Monday in the yr. Late enrolments may be accepted on payment of a late-enrolment fee. The last day of appln for admission by overseas candidates is Sept. 1 of the preceding yr. In facs in which there are quotas this date is rigidly applied.

AUSTRALIAN NATIONAL UNIVERSITY

School of General Studies

Special Requirements for Admission

There is no min. age for admission to the sch. of general studies. There are no sp. fac. requirements.

Candidates from N.S.W. and the A.C.T.

A person is eligible to be admitted to matric. if he has, at the one exam., passed the N.S.W. Leaving Cert. exam. in Engl., a branch of maths. or a foreign lang.; and 3 other approved subsys. For 1961 and 1962 a person who satisfies the admission requirements of the Univ. of Sydney or the Univ. of N.S.W. or the Univ. of New England, but who does not satisfy the preceding requirement, may also be admitted.

Candidates from other Australian States

A person qualified to matriculate in another Australian univ. will be admitted to matric. status.

Overseas Students

The matric. qualifs. of certain overseas instns. are accepted as grounds for admitting students to matric. status. However, a person whose native lang. is other than Engl. may be required to show that he has an adequate knowledge of the Engl. lang. by passing a standard Engl. test while still resident in the overseas country.

Provisional Matriculation

A person who is at least 25 by Dec. 31 in the yr. preceding that in which he proposes to enrol may be admitted to provisional matric. providing he can satisfy the matric. cttee. that he has a reasonable prospect of success in the course for which he proposes to enrol. A person so admitted will be fully matriculated and permitted to sign the matric. roll after having (i) as a full-time student passed in 2 units by the end of the 1st yr., (ii) as a pt.-time student passed in 2 units by the end of the 2nd yr. A person who fails to satisfy this requirement will have his provisional matric. cancelled and will not be eligible for readmission.

Last Date for Receipt of Applications

Applicns. for admission will usually be received up to the 2nd Tuesday in Feb. of the yr. in which admission is sought but overseas students are strongly advised to seek admission at least 3 mos. before this date.

MELBOURNE

[The statement which follows relates only to the admission of students entering at the conclusion of secondary school studies and proposing to take full courses leading to a first degree. For information regarding admission at higher levels and to courses leading to higher degrees, see the entries for the several univs., above.]

GENERAL NOTE

The public elementary and secondary schools of Canada are under provincial jurisdiction. Each province has its own curriculum and awards its own certs. of completion of secondary school studies. Except in French Canada (see below), private schools are relatively few, enrol less than 5 per cent of the elementary and secondary school population, and usually follow the public school curriculum of the province in which they are located. Courses of study which prepare for entry to univ. are of 11 to 13 yrs.' duration. Secondary school graduation certs. are at two levels, one generally referred to as the *junior matriculation* level (after the 11th or 12th grade or year of schooling), and the other, involving an addnl. year of study, as the *senior matriculation* level (after the 12th or 13th grade or year of schooling).

Some univs. admit at the jr. matric level, some at the sr., and some at both levels—allowing credit for one yr. of univ. studies on the basis of certs. at the sr. matric. level. Each univ. couches its entrance requirements in terms of the certs. awarded in its own province but all treat certs. of other provinces as if they were approx. equivalent to their own, differentiating only between jr. and sr. levels.

Most exams. marking the completion of high school (secondary) studies are set and marked by the dept. of educn. of the province concerned. Three of the four Atlantic provinces (Newfoundland, Prince Edward Island and Nova Scotia) co-operate in the support of an Atlantic Provinces Examining Bd. which sets and marks exams. for each of the three provinces. The exams. differ for the various provinces, however, and the results are issued by the provinces on their own certs. rather than by the Bd. An exception is made for a few private schools for which statements of exam. results are issued in the Bd.'s name. In

the province of Quebec there are two public examining bodies for Catholic schools—the *Comité de Régie du certificat d'études* (of the *Comité Catholique du Conseil de l'Instruction Publique*), and for Protestant schools—the Protestant High School Leaving Bd. (of the Protestant Cttee. of the Council of Education). In Ontario, exams. at the jr. matric level are set and marked, under the jurisdiction of the provincial dept. of educn., by individual schools, while those at the sr. matric level are under the supervision of a Univ. Matric Bd. composed of reps. of the major univs. of the province and reps. of the dept. of educn. In Manitoba, Saskatchewan, Alberta and British Columbia exams. are supervised jntly by the univ. and the dept. of educn.

A number of the univs. of the Atlantic provinces set their own matric exam. when necessary, but few students present themselves and seldom does a student take these exams. in all of the required subjs. In the province of Quebec the three French-lang. univs., Laval, Montreal and Sherbrooke, have extensive programmes of exams. (described below). McGill Univ. sets series of papers at both jr. and sr. levels, the former qualifying for the School Cert. and the latter for the Sr. School Cert. of the univ. The univs. of the other provinces do not set matric. exams. of their own but, as mentioned above, each co-operates with the dept. of educn. of its province.

Two innovations in 1961 deserve special mention.

(1) McGill Univ. introduced the use of Coll. Entrance Exam. Bd. tests which, in 1962 and subsequent yrs., will be required of all Canadian applicants for admission—in addition to a cert. of completion of secondary school studies (see pp. 1410). The Coll. Entrance Exam. Bd. (New York, N.Y.), through the Educnl. Testing Service (Princeton, N.J.), administers several times a yr.

in many centres in the USA and Canada a scholastic aptitude test and a series of objective-type achievement tests in various subs. The results of these standardized tests are used as addnl measures of suitability for admission to univ, often providing the basis for tentative acceptance of applicants and the award of entrance scholarships.

(2) In 1960, the Univ of Toronto made it a requirement that all candidates submit evidence of facility in the English lang (see p 1421). In 1961, most of the other English-lang univs began to experiment with tests of facility in English, asking that they be taken by overseas candidates whose schooling had been in another lang. If the experiment is successful, such tests are likely to be a general requirement in subsequent yrs. The tests currently in use are those administered in many parts of the world by the Univ of Michigan and the Univ of Cambridge. Res begun in 1960 is expected to lead to the development and use of comparable tests of facility in French, for candidates wishing to enter the French-lang univs.

In French Canada the course leading to the *baccalauréat ès arts* (BA) is given in independent *collèges classiques* affiliated to the univs. It is of 8 yrs' duration, in two 4-year stages called *cours secondaire* and *cours collégial*. The former is comparable to the high school of English Canada and the latter to the general course in arts. Admission to the 2nd stage is by passing the *immatriculation* exam set by the univ at the conclusion of the yr known as *versification*, which is the 4th (final) yr of the *cours secondaire* and the 11th yr of schooling. Compulsory exam. subs are French, Engl, Latn, hist, geog, maths and sci. Greek is optional. Recent revision of the Quebec French Catholic secondary school curriculum has made it possible for certain schools under provincial control to offer the equivalent of the 1st 4-yr stage, the classical course preparing for *immatriculation*.

The 4 yrs. of the *cours collégial* are called *belles-lettres, rhétorique, philosophie I* and *philosophie II*. In colls affiliated to Laval and Sherbrooke, univ. exams are taken at the end of the 2nd yr. (*rhétorique*), and again at the end of the 4th yr for the *baccalauréat*. In those affiliated to Montreal, exams are taken at the end of every yr of the *cours collégial*.

In order to meet the needs of students wishing to enter certain facs of the French-lang univs by routes other than that offered by the *collège classique* the Univ. of Montreal and the Univ of Sherbrooke inaugurated within recent yrs. a one-yr preparatory course open to grads. of other secondary schools and leading to a *certificat d'immatriculation majeur ou senior*.

Laval Univ began, in 1961, a special 1-yr course (*12^e année spéciale*) for students completing the classical course in public secondary schools after which, by spending 3 addnl. yrs in the *collège universitaire* of Laval, they may qualify for the *baccalauréat*. In the same yr there was

instituted in the *collèges classiques* affiliated to Laval a new *cours des humanités*, 5 yrs of secondary schooling leading to a *diplôme d'inscription* (sr matric), followed by a 3-yr *collège* course to the *baccalauréat ès arts*. In 1961-62 only, the 1st yr. (*8^e année*) of the new secondary course was offered, so it will be several yrs before the new *diplôme d'inscription* will be awarded.

In the table which appears on pp 1403-1405 the most common certs and records of marks issued by official examining bodies in Canada are listed. The nos. assigned to them are referred to in the statements of requirements for admission to the various univs., which follow. The reader should be aware that some documents issued by examining bodies do not certify graduation but simply list marks obtained on exams., e.g. 'certificates' numbered 1, 2, 4, 9, 26, 27, 28. It should be noted also that some public high schools issue their own graduation dipls or certs on bases which may or may not meet the standards set by the provincial dept of educn, e.g. in Prince Edward Island and New Brunswick.

In order to make these individual statements somewhat comparable, three common headings are used for each English-language institution: A. Admission at the Junior Matriculation level, B. Admission at the Senior Matriculation level, and C. Students from Abroad. For the French-language univs., in which the terms jr. and sr. matric have less relevance, the three common headings are: A. Admission to the second stage (*cours collégial*) of the Arts programme in affiliated *collèges classiques*, B. Admission to certain degree courses in the University proper by a certificate of completion of secondary school, and C. Students from Abroad.

It should be noted that in most univs., admission to such professl. schools as med., dent., law, theol., library sci., social work and educn. requires the previous attainment of a 1st degree in arts or sci. or at least 2 yrs of study, beyond the jr. matric. level, in arts or sci. Reference to these is omitted except in the few cases (e.g. med. and dent. at Toronto) where the pre-professl. studies are followed in the professl. school itself and where admission is normally at the conclusion of secondary school studies.

Some oft-used terms defined.

Junior matriculation. Eligibility for admission to univ. at the lower of the two common levels of entry. A student holding a secondary school graduation cert. may or may not have 'junior matriculation' standing, depending on the number and pattern of the subs. taken and his standing on the exams.

Senior matriculation. Eligibility for admission to univ. at the higher of the two common levels of entry. Involves one yr. of study beyond the jr. matric. level.

Grade, Year. One yr. of primary or secondary schooling, Sept. to June. Thus grade XI is the 11th yr. of schooling, *12^e année* is the 12th.

Pass or General Course. An unspecialized univ. course, commonly leading to a bachelor's degree in 4 yrs. beyond jr matric, or 3 yrs beyond sr matric

Honours course. A specialized univ course, sometimes of the same length as the pass or general course, more often one yr longer

First year, Second year, etc., of course Counting from jr or sr matric, depending on which is the minimum level of admission to the fac concerned

Freshman, Sophomore, Junior, Senior year of course 1st, 2nd, 3rd, 4th yr, usually counting from the jr matric level.

Middle East, Asia, West Indies, South America. Because the univ has not a satisfactory procedure for the selection of students from these areas, admission to undergrad programmes is granted only if the applicant is able to produce documentary evidence of having passed a widely recognized exam. at the sr matric level, such as the G.C.E. of various U.K. examining bodies, the American C.E.E.B. achievement tests, the Univ of Hong Kong Matric exam, etc. In all cases the univ will require proof of proficiency in Engl. and of financial competence

Exemption. Exemption from the 1st yr. of a course of study in subjs. which are to be presented at the subsidiary, normal or higher standards, may be granted by the bd. of the fac. to candidates who have passed in the G.C.E. exam. in 3 subjs. at the advanced level and have attained a standard deemed to be satisfactory in the subjs. concerned. These 3 advanced level subjs. need not necessarily be all scientific subjs. A standard higher than pass will be demanded in the 2 subjs. for which exemption is claimed. The syllabuses in terms of advanced level subjs. which are desired for entry into the 2nd yr. of study are as follows:

Pure maths. Further maths. or maths. plus further maths. Pure maths. for students taking subsl. pure maths.

Maths. (pure and appl.). Further maths. plus phys. or maths. plus further maths. Pure maths. with statistics may be considered in place of maths. or further maths.

Phys. Maths. plus phys., or further maths. plus phys.

Chem. For students taking higher chem.—chem. plus phys., and maths. or further maths. or maths. plus further maths. or bot. or zool. or biol. or geol. Chem. for students taking normal or subsidiary chem.

Applicants proposing to satisfy univ. entrance requirements by means of passes in general studies and in 2 other advanced subjs. may find it difficult to read for an hons. degree in some schs. of the fac. in 3 yrs.

MED. There are no spec. addnl. requirements for entry to the fac. of med. It is not necessary for candidates to have taken sci. subjects at advanced level in the G.C.E. exam., but it is advisable that phys. and chem. should have been studied up to ordinary level, since the 1st MB courses are designed on the assumption that students have an elementary knowledge of these subjs.

Exemption. Passes at advanced level in phys., chem. and biol. (or bot. and zool.) may entitle a candidate to exemption from the corresp. courses and exam. of the 1st MB. A pass at advanced level in zool. will also be accepted as grounds for exemption from the courses of study and exam. of the 1st MB biol. provided passes at the advanced level in chem. and phys. have also been obtained. Every endeavour is made to admit all eligible candidates direct to the 2nd yr. of studies, but occasionally the number of eligible candidates exceeds the number of vacancies. Those who cannot secure admission to the 2nd yr., and those with partial exemption, are offered opportunities of attending courses of instrcn. in other facs. to broaden their general educn.

* (A) = advanced level

DENT. SURG. There are no spec. addnl requirements for entry to the sch. of dent. surg., but it is desirable that phys. and chem. should have been studied up to ordinary level in the G.C.E. exam., as the 1st-yr course for the BDS is designed on the assumption that students have an elementary knowledge of these subjts.

Exemption. Candidates who have passed at advanced level in phys., chem. or zool. are eligible for exemption from the corresp. courses and exams. for the 1st BDS. If a candidate has passed in all these subjts. at advanced level, he is eligible to commence 2nd-yr. studies.

LAW. The bd. of the fac. will not regard with favour any applicant intending to become a solicitor or a barrister who, at the date of entry into the fac., does not possess the qualif. for exemption from the prelim. exam. of the Law Society or for admission as a student into one of the Inns of Court, as the case may be. Whilst not prescribing an exam. pass in Latin as an absolute essential, the bd. of the fac. regards the lack of a working knowledge of it as a handicap, particularly for the study of Roman law for the inter LLB course. Consequently, it is advisable for prospective applicants to acquaint themselves with the requirements of the appropriate professional body, in particular the articulated clerks regns., 1957.

ENGIN. Courses in the fac. of engin. are designed on the assumption that students have some previous knowledge of pure and appl. maths., phys. and chem. Candidates are recommended to present in the G.C.E. exam. at the advanced level (a) maths. plus further maths. plus phys., (b) maths. plus phys. plus chem., or (c) maths. plus phys. plus 1 other subj. Where it is possible to present maths. with different alternatives, it is strongly recommended that an alternative which includes theoret. mechanics should be presented. All candidates are strongly recommended to study chem. to at least the ordinary level of the G.C.E. For admission into the dept. of metall. it is recommended that candidates present combination (b). Applicants from candidates with other suitable combinations of subjts. will be considered.

All students entering the fac. are potential hons. candidates. Separation into ordinary and hons. degree streams normally occurs at the end of the penultimate yr. of the course.

Exemption. The bd. of the fac. will be prepared to consider for exemption from the 1st yr. of study and the inter. BEng exam. candidates who have passed the exam. for the G.C.E. and whose performance in 1 of the preceding combinations of subjts. is satisfactory to the bd. of the fac. Candidates who have passed the G.C.E. exam. but have not reached a sufficiently high standard for exemption from the 1st yr. of study and inter. BEng exam. may be considered for such exemption, provided that they satisfy the examiners in pure maths. and appl. maths. separately in the inter. exam. before entering the univ.

VET. SCI. The bd. of the fac. requires applicants to have attained a standard not less than

that of a pass in chem. at the advanced level of the G.C.E., and a standard not less than that of a pass in phys. at the ordinary level of the G.C.E.

Exemption. Candidates who have passed the G.C.E. at the advanced level, or an equivalent exam. at a similar standard, in any of the subjts. of phys., biol., bot. and zool. are eligible for exemption from the corresponding courses of study and exams. of the 1st BVSc exam.

Overseas Students

Overseas students must apply for admission to the fac. or dept., with the exception of students from India and Egypt, who apply for admission through the following official bodies: *India*—the Educn. Overseas students must forward with their applicn. for admission a cert. of proficiency in written and spoken Engl., and must satisfy the bd. of the fac. concerned that they have a knowledge of Engl. sufficient for undertaking their proposed course of study. Except by spec. permission of the senate, students normally resident outside Gt. Britain will not be admitted to the univ. unless assured of adequate financial support.

Last Date for Receipt of Applications

Forms of applicn. should be obtained from the univ. and must be completed and returned by Jan. 31 of the yr. in which admission is sought with the exception of applicns. for admission to the fac. of med., the sch. of dent. surg. or the fac. of vet. sci., which should be received by Nov. 30 of the previous yr.

The 1st yr. of a degree course is an integral part of the course; in spec. cases, however, students may be admitted to the 2nd or subsequent yr. if they have satisfactorily attended relevant courses at another approved univ.

ARTS. Students entering an hons. degree course may be exempted from attendance and exam. in one course of inter. grade, if they have passed sufficiently well in the relevant subject at the advanced level in the G.C.E. exam. A standard considerably above the pass mark is required.

MED. AND DENT. Candidates who have been accepted for admission to the course for the degrees of MB ChB and who have passed in chem. or phys. or zool. or biol. at the advanced level in the G.C.E. will be exempted from the corresponding separate subj. or subs. in the 1st MB ChB exam.

CAMBRIDGE

To become an undergrad. member of the univ. a student must first be admitted to a coll. or to Fitzwilliam House. Applicn. should be made on forms obtainable from the tutor for admissions of the chosen coll. (from the sec. in the case of Girton and Newnham Colls.). It is advisable to apply more than one yr. beforehand. Candidates from overseas may obtain information and advice from the adviser to overseas candidates for admission, 17 Silver St., Cambridge.

Admission to a coll. secures admission to the univ., but no student can be admitted to a coll. unless he has satisfied the exam. requirements for matric. in the univ. of which details are given below. Completion of these requirements is not by itself a sufficient qualif. for admission to a coll., which is competitive.

Many colls. have entrance exams., held once a yr., though they may admit persons (particularly overseas candidates) who have exceptional qualifs. without requiring them to take an entrance exam. Candidates for coll. scholps. may secure admission on the results of the scholp. exam. even if they do not obtain a scholp. or exhibition. Details of coll. entrance and scholp. exams. are given in a sp. number of the *Cambridge Univ. Reporter* pubd. annually in May and obtainable (price 6d.) from the univ. press.

Exam. Requirements for Matriculation

A candidate for admission will satisfy the exam. requirements for matric. if he has, in one or more exams. for the G.C.E. held by nos. 3-11,* passed in: (a) the Use of Engl., (b) 2 langs. other than Engl., (c) an approved mathematical or scientific subj., (d) one other approved subj. The candidate must have passed 2 of the subjs. under (b), (c) and (d) at advanced level, unless he holds a coll. open scholp. or exhibition. A pass in the Use of Engl. may not be counted if it was obtained more than 12 mos. before the date of the exam. in which the candidate first obtained passes in one or more subjs. at advanced level or obtained a coll. open scholp. or exhibition. A pass in the univ. supplementary exam. in the Use of Engl. or in papers prescribed by the matric. bd. is accepted in place of G.C.E. Use of Engl., and a pass in the univ. supplementary exam. in Latin is accepted as a pass at ordinary level in a lang. other than Engl.; these supplementary exams. are held twice a yr. in Cambridge.

A candidate can alternatively, until Oct. 1, 1965, satisfy the exam. requirements for matric. if he has, in one or more exams. for the G.C.E. held by

nos. 3-11,* passed in: (a) Engl. lang., (b) Latin or classical Greek, (c) an approved mathematical or scientific subj., (d) 2 other subjs. The candidate must have passed 2 of the subjs. in (b), (c) and (d) at advanced level.

A candidate will be deemed to have satisfied the ordinary level exam. requirements for matric. if he has passed (in the G.C.E. subjs. specified above) in one or more exams. for certain certs. other than G.C.E. These certs. and the prescribed standards are: no. 12,* pass at lower standard; no. 13,* pass in ordinary grade (a pass in higher grade is deemed to be a pass at advanced level); no. 14,* pass at ordinary level (pass at advanced level is accepted as such); no. 16 (a),* pass with credit or 'very good'; no. 16 (b),* pass in a subsidiary or principal subj. (pass in a principal subj. is deemed to be pass at advanced level). Also Sch. Cert. awarded by West African Exams. Council, pass with credit or 'very good'; Leaving Cert. of Dept. of Educn., Dublin, pass with hons; cert. of having passed in certain subjs. in the matric or entrance exams. of Univ. of Dublin, Queen's Univ. of Belfast or National Univ. of Ireland; Ceylon Sr. Sch. Cert. or Ceylon General Cert. of Educn., pass with credit.

Requirements for Particular Courses

LETTERS. A candidate qualified for matric. on the G.C.E. who wishes, or who is required, to offer Latin in the 1st univ. exam., must normally have obtained a pass at advanced level in the G.C.E. in that subj. before entry. An advanced level pass in Latin is thus normally required of students intending to follow the hon. course in classics, Latin, Greek, Engl., Latin and Engl. lit., Greek and Engl. lit., or Latin and French. A candidate intending to follow the hon. course in French or Italian or a combined hon. course in mod. langs. (French and German, German and French, French and Italian, Italian and French) will normally be required to have passed in Latin at advanced level or to have passed in 2 mod. langs. at advanced level and in Latin at ordinary level. A candidate intending to follow the hon. course in German or in mod. hist. will normally be required to have obtained at least an ordinary level pass in Latin. A candidate intending to follow the hon. course in geog. who wishes to offer geol. in the 1st univ. exam. must have obtained an ordinary level pass in chem.

SCI. No spec. requirements

* (A) = advanced level; (O) = ordinary level.

§ Entry to the fac. in Oct. 1962 will be confined to candidates qualifying for total exemption from the inter. exam. in anticipation of alterations to the regns. for 1st degrees which will come into effect in Oct. 1963 and will provide *inter alia* for the abolition of the inter. course and exam

AGRIC. A candidate intending to follow either the pass or hon. course in agric. or dairying or hort. is normally required to have gained, before entering the univ., one yr.'s practical experience of a type suitable to the particular course he proposes to follow. In the case of dairying, it is preferable that 6 mos. of the period should be spent on a dairy farm and 6 mos. in a dairy factory.*

Exemption from First-Year Courses and Exams.

LETTERS. No exemption from the 1st univ. exam. in arts is permissible, except for grads of approved univs.

SCI. A student may be totally exempted from the inter. exam. if he has obtained passes at advanced level in a G.C.E. exam. or exams (or the equivalent in a London inter. or a Higher Sch. Cert. exam.) in the 3 subs. which he proposes to offer in the general course and final exam. § A student wishing to offer microbiol. in the general course must have obtained advanced level passes in chem. and in 2 of the subs., phys., bot., zool.; if he wishes to offer psychol. in the general course he must have obtained advanced level passes in 3 of the subs., incl. phys. or zool., that may be offered in the course. Exemption from 1 subj. of the inter. exam. may be given if a student has obtained a pass at advanced level in a G.C.E. exam. in that subj. If given such exemption from exam. in a subj. which he proposes to offer in the general course, he may nevertheless be required to attend a course in that subj.

AGRIC. Pass courses are provided in agric., hort. and dairying. First univ. exam. in agric.; the course and exam. are in 2 sections; section A consists of phys., chem., bot., zool. and geol. (the syllabuses for which are the same as those for the inter. exam. in the fac. of sci.), and section B of econ. and the hist. of agric. A student may be exempted from any subj. or subs. of section A in which he has passed at advanced level in a G.C.E. exam. (or the equivalent in the London inter. or a Higher Sch. Cert. exam. or other approved exam.) on the following conditions:

(a) In the exam. he must offer at least one and not more than three of the subs. of section A. A student who would need to offer more than three of those subs. would be required to spend 2 yrs. on the course.

(b) A student intending to follow the pass course in dairying must normally offer phys. whether or not he is eligible for exemption from that subj.; he is not, however, required to offer geol.

(c) A student who has obtained a pass in biol. at advanced level in a G.C.E. exam. (or its equivalent) will normally be exempted from zool. in the exam.

Hons. courses are provided in each of the following subs.: agric. sci., hortic. sci., agric., dairying,

agric. bot., hort. bot., agric. chem. (either in animal nutrition or in soil sci.), agric. econ. These courses are normally divided into yrly. parts; pt. I consists of the inter. exam., the subs. of which are phys., chem., bot. and zool., save that a student following the hons. course in hort. sci. or in agric. bot., or in hort. bot. must offer geol. instead of zool. Total exemption from the inter. exam. may be granted on passes at the advanced level in a G.C.E. exam. in phys., chem., and one of the subs. bot., zool., biol., maths., but all students entering for the hons. course in agric. bot. or in hort. bot. or in hort. sci. would normally be expected to have advanced level passes in phys., chem. and bot. for total exemption. Pts. II, III and IV consist of the course for the hons. subj. which extends over 9 terms. Thus a student who obtains total exemption from the inter. exam. can complete an hons. course in 3 yrs.

(c) Candidates for admission to an hons. course in hist. must satisfy the hd. of dept. that they have an adequate reading knowledge of Latin. (d) Candidates for admission to an hons. course in music must satisfy the hd. of dept. that they have adequate executant ability in one practical subj.

(e) Hons. in for. is restricted to those who have maths., chem., phys., at ordinary level, and passes

at advanced level in 2 or more of the following: chem., phys., bot., zool.

Cardiff U.C. For Latin, French or maths. a pass at advanced level or equivalent is required. For hons. in hist. usually a translation knowledge of Latin and French is required.

Swansea U.C. For hons. in hist. candidates must have an adequate reading knowledge of Latin, or French, or German, or Welsh. For hons. in phys. candidates should have advanced level passes in phys. and maths. For hons. in chem. candidates should have advanced level passes in phys. and chem. For degree courses in engin. candidates should have advanced level passes in maths. and phys., and preferably also in chem. For degree courses in metall. and chem. engin. candidates should preferably have advanced level passes in maths., phys. and chem.

Welsh National Sch. of Med. It is not a condition of entry that a student should pass in any particular subj.

Exemptions from Intermediate Courses, etc.

The BA hons. course is one of 3 yrs., but students may be required to spend 4 yrs. over the course. Normally 3 passes at advanced level, and sometimes 2, ensure entry to a course requiring only 3 yrs.' pursuance. For entry to depts. the subjs. of which are not normally taught in schs., recognition is sometimes given to passes at advanced level in subjs. which are allied or considered to be suitable equivalents.

The BSc hons. course is one of 4 yrs., but students may be exempted from the inter. course in subjs. passed at advanced level; this makes possible the completion of an hons. course in 3 yrs. Admission to the 2nd-yr. course of subjs., which cannot usually be taken at sch., may be granted by virtue of advanced level passes in subjs. regarded as allied or ancillary, e.g. admission is possible to 2nd-yr. courses in metall. and in engin. for those with advanced level passes in maths., phys. and/or chem.

(4) A Sr. Cert. of the Ministry of Educn., N. Ireland, issued in 1952 or later, will be accepted if it contains passes in at least 6 subjs. recog. by the bd., incl. Engl. lang.; Engl. lit.; a lang. other than Engl. and a mathematical or scientific subj., on condition that at least 3 of the passes are at the advanced level, one of these 3 being either in a lang. other than Engl. or in a mathematical or scientific subj., and that all 6 passes have been gained at not more than two separate sessions of exam. A sr. cert. gained at one session of exam. may be supplemented by a pass or passes gained at one session of the matric. exam. of the Queen's Univ. of Belfast: a pass in this exam. will count as the equivalent of a pass at the advanced level in a cert. of 1952 or later yr. An applicant who has passed at not more than two sittings the matric. exam. of the Queen's Univ. of Belfast in Engl., maths., a lang. other than

* See above, p. 1424

Engl., and in 2 other subj. incl. in the groups mentioned in (3), qualifies for attestation.

(5) Passes at 50 per cent, or better, shown in a cert. qualifying the applicant for entry on a degree course in arts, pure sci. or med. at a recog. univ. of the Republic of Ireland, Canada, Australia, New Zealand or of the Republic of South Africa, if they are in subj. recog. by the bd., will count (1) as passes at ordinary level if the holder completes his quals. by means of the G.C.E. exam. (clause (3) above), or (2) as passes on the lower standard if he completes by the Entrance Bd.'s prelim. exam. at any one session of that exam. (clause (2) above). Alternatively a cert. signed by the registrar of a recog. univ. in these countries stating that the applicant has completed satisfactorily the first 2 yrs. of a course leading to a degree in arts, pure sci. or med., and has duly passed in all the subjs. of his course up to that point, will qualify for the Cert. of Attestation. The bd. will not consider applns. from persons who have failed to pass all the relevant exams. of the first 2 yrs. of an approved degree course, unless they can demonstrate that their failure is attributable to sp. circumstances, e.g. prolonged illness. In all such cases, applicants must submit full details accompanied by appropriate official evidence.

(6) Evidence of the satisfactory completion of the 2nd yr. of a course leading to a degree in arts or pure sci. or of the pre-med. course, of a univ. or coll. in the U.S.A. (other than a jr. coll.) appearing in the current list publ. by the American National Ctee. of Regional Accrediting Agencies, will qualify for the bd.'s Cert. of Attestation if the applicant's academic record shows grades averaging not below B in such of the following subjs. as have been incl. in the first 2 yrs. of his academic course: Engl., foreign langs., maths. (pure and appl.), sci., hist., geog., art and music.

(7) A sch. leaving, matric. or univ. entrance cert. awarded in any one of the following countries and qualifying unconditionally for entrance on a course leading to a degree in arts, pure sci. or med. in a recog. univ. of that country, is acceptable: (a) if it contains passes of 'satisfactory' (or higher) grade in 6 of the subjs. detailed in para. (3) above, and these incl. (1) the lang. of the country issuing the cert.; (2) a 2nd recog. lang.; and (3) either maths. or a recog. sci.; and (b) if at least 2 of these passes (which must incl. Engl. or a subj. of group II or group III [taken in the written exam.]) are graded as 'very satisfactory'; and (c) on condition that it is supplemented by (1) a London Univ. or Cambridge Cert. of Proficiency in Engl.; or (2) a pass in spec. Engl. or in ordinary Engl. from 1962 in the Entrance Bd.'s prelim. exam.; provided that exemption from this condition will be granted if the grade 'very satisfactory' has been awarded in Engl. (written and oral). A cert. that fails to satisfy clauses (a) and (b) of this rule for want of a 6th subj., or in respect of the grade of pass required in one subj. only, may be made good by a pass of the requisite

standard in an appropriate subj. obtained either (1) in a subsequent session of the original exam., or (2) in the Entrance Bd.'s prelim. exam., in which the pass must be on the higher standard; or (3) in the English G.C.E. exam., in which the pass must be on the advanced level.

Note.—The bd. has decided to fix the 'credit' and 'very good' standards at 60 per cent. and 70 per cent. respectively. Passes at these levels obtained before the issue by the Scottish Educn. Dept. of 'Supplements for University Entrance' will not be recognized.

The inst. was founded in 1927 by joint Anglo-French initiative to provide practical courses in French and English complementary to the instrcn. given in these subjects in the fac. of arts at the Sorbonne.

The dept. of Engl. organizes oral and correspondence courses for French univ. students of Engl. lang. and lit. (1st yr. *licence* and *agrégation* levels) and for the Cambridge exams. in Engl. About 2000 students a yr. attend the English courses.

The dept. of French organizes courses from Oct. to June at school-leaving, undergrad. and res. levels, and Easter vacation courses for undergrads. and sixth-formers. For British students spending a yr. in French schs. as assistants, a short introductory course is organized in the autumn, and a correspondence course during the academic yr. Enrolment figures for 1960-61 were: assistants, 261; Easter vacation course, 50; sixth-formers, 360; 100 teachers who at-

tended a refresher course in July sponsored by the ministry of education.

Membership of the Meyer-Sassoon library (15,000 vols.) and the students' club is open to all students of the inst., and applicants are welcomed from other students from British univs. Advice on lodgings is available for students attending the inst., and is offered when possible to other British students.

BRITISH SCHOOL AT ROME

Dir.—J. B. Ward Perkins, CBE. *Postal address*: Accademia Britannica, Valle Giulia, Rome 51. *Hon. general sec.*—W. D. Sturch, 1 Lower Gdns., London, S.W.7 (tel.: Kensington 3665).

The sch. was establd. in 1901 as a sch. of archaeol. devoted to the study of the antiquities and hist. of Rome and Italy. In 1911 it was reconstituted to offer facilities also for practising students of archit., sculpture and painting. A royal charter of incorporation was granted in the following yr.

The sch. to-day includes 5 facs.: archaeol., hist. & letters; archit.; painting; sculpture; engraving. The income of the sch. is derived partly from public funds, partly from the commissioners for the exhibition of 1851, and partly from subscriptions and donations from univs., colls., socs. and private individuals.

Rome scholps. are offered in classical studies, in mediæval studies, and in each of the 4 facs. of the fine arts. Particulars of these and other scholps. attached to the sch. may be obtained from the hon. general sec. (*see above*).

The sch. is in no sense a teaching instn., and admission is normally restricted to winners of one of the above scholps. and to grad. students of the univs. and art schs. of the Commonwealth who are qualified to promote the objects of the sch. Accommod. is available for the staff and about 25 students. There is a library of some 35,000 vols. The *Papers of the British Sch. at Rome* provide an annual account of the more important archaeol. and hist. researches of the sch.

**BRITISH SCHOOL OF ARCHÆOLOGY
AT ATHENS**

Dir.—M. S. F. Hood, MA, FSA. *Postal address*: British School of Archæology, Odos Souedias 52, Athens. *Sec.*—Edith Clay, FSA, 31-34 Gordon Square, London, W.C.1 (tel: Euston 8029).

The sch. was founded in 1866. Its first aim is to promote the study of Greek archæol. in all its depts., incl. the study of the hist., religiôn, art and life of ancient Greece as revealed by the monuments and the exploration of ancient and mediæval sites. Excavations in Greece have always been one of the principal activities of the sch., but it is also in the widest sense a sch. of classical studies, taking every period of Greek lang. and lit., from

the earliest age to the present day, as its province. With these ends in view, the sch. co-operates with univs, museums and other bodies in the United Kingdom and in other parts of the Commonwealth.

The sch. is largely residential. It admits holders of grad. studentships and travelling fellowships awarded by Commonwealth univs, and other persons who satisfy the managing cttee. that they qualify as students, including those of foreign univs. The academic session is from Nov. 1 to June 30. Students may begin work at any date but are normally required to reside for not less than 3 months.

The library contains some 20,000 archæol. and other books, together with maps, plans and photographs.

APPENDIX VII

COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN

The Commonwealth Scholarship and Fellowship Plan was drawn up at Oxford in July 1959 at the Commonwealth Education Conference, a meeting of official delegates from the various countries convened by the United Kingdom government in accordance with a decision of Commonwealth Ministers at the Trade and Economic Conference held at Montreal in September 1958. The Montreal conference, in stressing the importance of education and training to the development of the different countries, had expressed the hope that they would be able to share with each other the advantages of education of all kinds and at all levels and had envisaged a scheme of 1000 scholarships, of which the United Kingdom undertook to provide one-half and Canada one-quarter. All the Commonwealth countries and most of the dependent territories were represented at the Oxford conference which, in addition to recommending arrangements for Commonwealth co-operation in such matters as technical training and the supply and training of teachers, worked out details of the Commonwealth Scholarship and Fellowship Plan to which effect has been given by decisions of the various governments. The Plan aims (as stated in the report of the conference) at enriching each country of the Commonwealth by enabling an increasing number of its ablest citizens to share the wide range of educational resources available throughout the Commonwealth and thus at promoting equality of educational opportunity at the highest level.

In general there are two kinds of awards—*Commonwealth Scholarships* which are normally intended for young graduates of high intellectual promise who may be expected to make a significant contribution to life in their own countries on their return from postgraduate study overseas, but which may be awarded for undergraduate study in cases where facilities for such study are not available in their own country; and *Commonwealth Visiting Fellowships* which are intended for a few senior scholars of established reputation and achievement. The main emphasis is on awards in the academic (including technological) fields but the possibility is not excluded of some awards being made to people outside these fields who play important rôles in the life of their country.

The general basis of the Plan is that each Commonwealth country which is able to do so should institute Commonwealth Scholarships and Fellowships which may be held by men and women

from other Commonwealth countries at its universities, colleges and other institutions of higher education. The following countries have instituted scholarships: the United Kingdom, Canada, Australia, New Zealand, India, Pakistan, Ceylon, Malaya, Nigeria, Cyprus, Sierra Leone, the Federation of Rhodesia and Nyasaland, East Africa (awards being established jointly by the governments of Kenya, Tanganyika and Uganda), Hong Kong, Jamaica and Malta. Fellowships or awards for senior scholars and education administrators have so far been instituted by the United Kingdom, Australia, New Zealand, India and the Federation of Rhodesia and Nyasaland. Each awarding country (*i.e.* the country in which the award is tenable) is responsible for the administration of its own awards. Local assistance is provided by the nominating country (*i.e.* the country from which nominations are invited) in publicizing awards and inviting applications from which to select nominations.

The value of the awards is determined by each awarding country and is set out in the prospectus of its awards. In general the emoluments include fares to and from the awarding country, payment of tuition fees, allowances for books, special clothing and local travel and a personal maintenance allowance. In some countries a marriage allowance is paid in addition. The normal period of tenure for a Commonwealth Scholarship is two academic years but in certain circumstances this period may be longer or shorter. Scholars are expected to return to their own countries on the completion of the tenure of the award.

The Commonwealth Scholarships offered by Canada—to take as an example the form given to its competition by one awarding country—are tenable at any Canadian university and are open to men and women under 35; only Commonwealth citizens and British protected persons are eligible to apply. These awards are offered in the other countries and territories on the basis of a series of 'notional quotas'. Other awarding countries have announced similar but not identical conditions; all of them publish their own notices for circulation in the countries from which applications by candidates are invited. These announcements (with closing dates) will normally be displayed in universities and colleges and (where appropriate) will appear in the local press.

By October 1961 competitions had been held for the awards instituted by all the awarding

countries named in the Table below and students had taken up awards in thirteen of them. Full details of the operation of the scheme in the various countries in the first year up to March 31, 1961, are given in the *First Annual Report (1960-1961) on the Commonwealth Scholarship and Fellowship Plan* prepared by the Association of Universities of the British Commonwealth and published by the Commonwealth Education Liaison Committee. The report summarizes the activities of each country under the scheme and in a series of tabular appendices analyses the various competitions that have been held. In the period covered by the report 408 Commonwealth Scholarships were offered to candidates by the various awarding countries; 335 were accepted and by March 31, 1961, over 250 successful applicants had taken up awards and were studying in overseas countries under the auspices of the Plan. The report indicates that the Plan is going a long way to meeting the need for higher education overseas in the Commonwealth. 22,000 applications were made for the various awards for which competitions were held within this period. Many of the countries listed above have already held more than one selection operation and in fact, at the time of going to press, Canada and the United Kingdom are in the midst of their third selection operation. Already two generations of Commonwealth Scholars have taken up awards

in these countries. The progress of the scheme so far was reviewed at the second Commonwealth Education Conference held in New Delhi in January 1962. The conference, having surveyed the achievements of the Plan to date, confirmed with minor modifications the basis on which the Plan is being operated.

Candidates for Commonwealth Scholarships offered by whatever awarding country are required to apply through the appropriate scholarship agency in their *country of normal residence*, i.e. a student who is already temporarily abroad in another country of the Commonwealth may not apply in that country for an award wherever tenable, but must lodge his application with the agency in the country where he ordinarily lives. It will then be considered in the local competition which is held to select candidates for nomination to the particular awarding country. On the other hand, a citizen of one Commonwealth country who has established his permanent home in one of the other countries, must, irrespective of his legal citizenship, submit his application in his adopted country and be judged in the competition with the other applicants there.

Each country in the Commonwealth has designated a local agency for the Commonwealth Scholarship and Fellowship Plan to handle (a) the preliminary selection for nomination to awarding countries and (b) the final selection

APPENDIX VIII

THE ASSOCIATION OF UNIVERSITIES OF THE BRITISH COMMONWEALTH

The Association of Universities of the British Commonwealth is a voluntary association of institutions of university and university college standing in the various countries of the Commonwealth. It is incorporated as a limited company under the Companies Acts of the United Kingdom, its main office being at 36 Gordon Square, London, W.C.1, and its membership in January 1962 comprising 123 universities and colleges. Any corporate body wishing to join the Association must apply to the executive council of the Association, whose practice is to consult the inter-university organization in the country concerned as to the academic standing of the applicant institution before deciding the question of admission.

The Association was established in 1912 as a result of the first Congress of the Universities of the Empire which was convened in that year by the University of London; one of the decisions of the delegates of the fifty-three home and overseas universities who attended was that a Bureau should be maintained in London by the contributions of the several universities for the purpose of disseminating information on all matters of common interest, including the publication of a yearbook and the summoning of future congresses at five-yearly intervals. In 1919 the Bureau was incorporated under licence of the Board of Trade and a grant was made by H.M. government for central offices on condition that the universities themselves undertook to provide adequate funds for maintenance. This building was destroyed in 1940, but new offices were provided after the war from the subscriptions of member universities which continue to be the main income of the Association as it is not in receipt of any government grant. In 1961 a branch office for Commonwealth Scholarships and Appointments was opened at Marlborough House, Pall Mall, London, S.W.1.

The affairs of the Association are controlled by an executive council elected each year at an annual general meeting of members. Each member institution is entitled to be represented at this meeting by its executive head (vice-chancellor, president or principal) or by a personal deputy whom he may appoint; the meeting elects a

council of 16 members to represent member universities in the different countries, and a chairman, vice-chairman and honorary treasurer are appointed by the new council. In practice the chairmanship is occupied by a university vice-chancellor or president chosen from the different countries of the Commonwealth in turn, usually with regard to the venue of any overseas meeting of the Association in the year concerned.

Since 1912 seven further congresses of universities have been held under the auspices of the Association—in 1921 at Oxford, in 1926 at Cambridge, in 1931 at Edinburgh, in 1936 at Cambridge, in 1948 at Oxford and in 1953 at Cambridge. The eighth Congress of Universities of the Commonwealth was held at McGill University, Montreal, in September 1958, and was the first of the series to take place outside the United Kingdom. These congresses, at approximately quinquennial intervals, are major events in the field of Commonwealth conferences on higher education, each member university being invited to send a representative delegation. The 1958 congress was attended by 385 delegates, 102 member institutions being represented. The 1963 congress will be held in London. The Association has, since the war, held a number of smaller conferences in various parts of the Commonwealth; these are usually in the form of a meeting of the executive council and consequently involve the visit to one academic centre of some 12 to 15 heads of universities from the other countries. Such meetings were held at Halifax, Canada, in 1949; at Wairakei, New Zealand, in 1950; at Madras, India, in 1952; at Kingston, Canada, in 1954; at Melbourne, Australia, in 1955; at Lahore, Pakistan, in 1956; at Johannesburg and Grahamstown, South Africa, in 1960; in Hong Kong in 1961; and in New Zealand in 1962.

The Association's offices in London have a full-time staff of thirty-five. Besides providing an information bureau and a reception centre for visiting academic teachers and administrative officers, particularly those from universities overseas, the Association undertakes on behalf of its member institutions any special business which they may desire to have transacted in Europe. Considerable sections of this work are in connexion

with the assistance given to overseas universities in obtaining and investigating applications for advertised vacancies on their teaching staffs, and in connexion with the affairs of the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom, of which the Association under a special financial arrangement provides the secretariat. Since 1959 the Association has been undertaking certain responsibilities in connexion with the Commonwealth Scholarship and Fellowship Plan (see p. 1479) particularly by providing the secretariat for the Commonwealth Scholarship Commission in the United Kingdom. The Association also provides the secretariat for the Marshall Aid Commemoration Commission which administers a scheme under which 24 scholarships are offered annually to U.S. graduates for study at U.K. universities. The staff performs its functions under the direction of the secretary and the deputy secretary, and includes several other graduates.

The *Commonwealth Universities Yearbook* has been produced regularly by the Association since its first issue in 1914 and is now a standard work of reference on the universities of the several countries, including those of the United Kingdom. Other recurrent publications of the Association are: *Higher Education in the United Kingdom: a*

Handbook for Students from Overseas (Longmans for A.U.B.C. and British Council); *Proceedings of the Quinquennial Congresses of Commonwealth Universities*; *Proceedings of the Home Universities Conferences*; *Annual Report of the executive council*; and *List of University Institutions in the British Commonwealth*. In addition the Association has published special reports such as *Applications for Admission to Universities* (report by R. K. Kelsall on an inquiry commissioned by the U.K. Committee of Vice-Chancellors and Principals), 1957; the first (1958), second (1960) and third (1961) *Report of an ad hoc Committee on Procedure for Admission of Students to U.K. universities and a Code of Practice for the protection of persons exposed to Ionizing Radiations in University Laboratories* (1961). Lists are also available of United Kingdom university term dates, academic visitors to the U.K. and postgraduate awards.

The formal constitution of the Association is set out in the memorandum and articles of association which were adopted and approved by the Board of Trade in 1932 in substantially their present form, though certain amendments have been made with the required approval at extraordinary general meetings following the congresses of 1936, 1948 and 1953 to give effect to minor changes desired by the representatives of member universities.

9. 27. All acts done by any meeting of the Council or by any person acting as a member of the Council shall notwithstanding that it shall be afterwards discovered that there was some defect in the appointment of the Council, or persons acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and was qualified to be a member of the Council.

28. Without prejudice to the generality of the powers conferred upon the Council by Article 17 the Council may from time to time frame regulations (a) generally to give effect to the provisions of the Memorandum of Association and of these Articles and (b) particularly for the following purposes:

29. The Council shall cause minutes to be duly entered in books provided for the purpose of all business transacted at General and Extraordinary Meetings and at meetings of the Council and Committees thereof

The Council may whenever it thinks fit and it shall upon a requisition made in writing and signed by Members entitled to vote representing not less than one-tenth of the total voting rights of all the Members having at the date of the requisition a right to vote at General Meetings of the Association convene an Extraordinary Meeting. The Secretary shall at any time when required by the Chairman of the Association or in his absence abroad by the Vice-Chairman of the Association summon an Extraordinary Meeting.

38. Any requisition made by the Members of the Association entitled to vote as aforesaid shall express the object of the meeting proposed to be called and shall be left at the registered office of the Association.

Upon the receipt of such requisition the Council shall forthwith proceed to convene an Extraordinary Meeting and if they neglect to do so for twenty-one days from the time of the requisition being so left the requisitionists or any of them representing more than one-half of the total voting rights of all of them may themselves convene the meeting in the same manner as nearly as possible as that in which meetings are to be convened by the Council.

40. The business of an Ordinary Meeting shall be—

- (a) To receive and consider the accounts, the balance-sheet and the reports of the Council and the Auditors.
- (b) To appoint an Auditor or Auditors and fix his or their remuneration
- (c) To appoint the members of Council in accordance with the provisions of Article 13.

All other business transacted at an Ordinary Meeting and all business transacted at an Extraordinary Meeting shall be deemed special. If any Member has any proposal or any matter which he wishes to make or bring before an Ordinary Meeting he shall give fourteen days' written notice thereof to the Secretary.

41. Subject to the provisions of Section 141 (2) of the Companies Act, 1948, relating to Special Resolutions, twenty-eight days' notice at the least (or in the case of a meeting convened pursuant to a requisition of Members fourteen days' notice at the least) exclusive of the day of giving the notice but inclusive of the day of the meeting, specifying the place, the day and hour of meeting and (in case of special business) the general nature of such business, shall be given by notice to the Members in manner hereinafter stated with reference to the giving of notices, but the accidental omission to

give such notice to or the non-receipt of such notice by any Member shall not invalidate the proceedings of any meeting.

42. Except as otherwise provided by these presents no business shall be transacted at any General Meeting unless a quorum of representatives of Members entitled to vote is present at the time when the meeting proceeds to business.

43. A quorum shall consist of ten representatives of Ordinary Members.

44. If within half an hour from the time appointed for a meeting ten representatives of Ordinary Members entitled to vote are not present the meeting if convened upon a requisition of Members shall be dissolved but in any other case it shall stand adjourned to a place to be fixed by the Chairman of the Association or in his absence abroad by the Vice-Chairman of the Association and to a date to be fixed by the Chairman or Vice-Chairman (as the case may be) not earlier than two weeks and not later than one month after the date of the original meeting, and if at such adjourned meeting a quorum is not present but two or more representatives of Ordinary Members entitled to vote are present the representatives of Members present entitled to vote shall be a quorum and may transact the business for which the original meeting was called.

45. At any adjourned General Meeting the representatives of Ordinary Members present entitled to vote being two or more in number shall have the power to decide upon all matters which could properly have been disposed of at the meeting from which the adjournment took place had a sufficient number of representatives of Members entitled to vote been present at such meeting. Notice of the time and place fixed by the Chairman of the Association or the Vice-Chairman of the Association (as the case may be) for an adjourned meeting shall be given to all Members entitled to receive notices of meetings.

46. The Chairman of the Association if present shall be the Chairman of every General Meeting, but if the Chairman of the Association is absent then the Vice-Chairman shall preside and if neither the Chairman nor the Vice-Chairman is present the representatives of Members present at the meeting and entitled to vote shall choose a representative entitled to vote to act as Chairman in his place.

47. The Chairman may upon the resolution of the meeting adjourn any meeting from time to time and from place to place but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

48. No poll shall be demanded on the appointment of a Chairman or on a question of adjournment.

49. At any General Meeting unless a poll is demanded by at least two representatives of Members entitled to vote a declaration by the Chairman that a resolution has been carried or has been carried unanimously or by a particular majority or lost or not carried by a particular

majority and an entry to that effect in the book of proceedings of the Association shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such resolution.

50. If a poll is demanded by two or more representatives of Members entitled to vote it shall be taken in such manner as the Chairman directs and he shall have power to take the poll at once at the meeting or to adjourn the meeting for a reasonable time not exceeding fourteen days for the purpose of taking such poll, and the result of such poll shall be deemed to be the resolution of the Association in General Meeting. In case of an equality of votes at any General Meeting the Chairman shall be entitled to a second vote or casting vote.

51. Minutes of all resolutions and proceedings at General Meetings signed by any person purporting to be the Chairman of the Meeting at which such Minutes were signed as correctly recorded, shall be conclusive evidence of the facts therein stated.

52. Nothing in these Articles shall preclude the Council from inviting any member of the teaching or administrative staff of a corporation or institution, which is an Ordinary Member or an Associate Member, to attend a General or Extraordinary Meeting of the Association, or any meeting of the Council or Committees thereof, provided that any person so attending any meeting shall not be entitled to vote at such meeting or to participate in any discussion on any subject other than that for the discussion of which he has been invited to attend.

59. The Chairman of any meeting shall be the sole and absolute judge of the validity of every vote tendered at such meeting or poll and may allow or disallow the votes tendered according as he shall be of opinion that they are or are not valid.

ACCOUNTS

60. The Council shall cause proper books of account to be kept with respect to :

- (a) all sums of money received and expended by the Association and the matters in respect of which the receipts and expenditure take place, provided that receipts and expenditure in connection with the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom and with any other Committees or activities of these Universities shall be shown separately;

GENERAL INDEX

[For index to the names of teaching staff and administrative officers, see pp. 1529-1668]

The General Index contains references to institutions, to subjects of study, and to such topics as Admission, Degrees, Vacation Courses, etc.

In each university entry in the book, only the *first* page on which a subject of study is mentioned is indexed, the several colleges, etc., of a federal university being treated as separate entries. This single reference is usually to a departmental heading, or bracketed subject beside a status, in the staff list, but a further (unindexed) mention of the subject may also be found in such paragraphs as 'First Degrees' or 'Diplomas' in the section of General Information for that university.

Although, under the heading of 'Medicine', a reference is given in the index to each medical school or faculty, subjects which normally form part of the course for a degree in medicine are not indexed separately. Such subjects are: anaesthetics, anatomy, bacteriology, dermatology, forensic medicine, gynaecology, obstetrics, ophthalmology, orthopaedics, oto-rhino-laryngology, paediatrics, pathology, physiology, surgery, tuberculosis, venereal diseases.

Similarly, although a reference is given in the index, under the heading of 'Dentistry', to each dental school or faculty, subjects which normally form part of the course for a degree in dentistry are not indexed separately.

The indexing of subjects which may be studied at all, or almost all, universities is limited to the indexing of references in the several national introductions. Such subjects are: biochemistry, biology, botany, chemistry, classics (Greek and Latin), economics (political economy), education, engineering (also civil, electrical and mechanical engineering), English, French, geography, geology, German, history, law, mathematics (also pure and applied mathematics), music, philosophy, physics, politics (political science), social studies, zoology. It should, however, be noted that the less common branches of these subjects (*e.g.*: agricultural chemistry; music, African) are fully indexed in the way described in paragraph two above.
